REGULATION OF COAL INDUSTRY GAINS GROUND

Investigation of Strike by Senate Committee Gives Movement Aid

SUGGEST COMMISSION

Lewis Would Wipe Out "Useless and High Cost" Mines

Washington, March 8—The movement for federal regulation of the coal industry gained strength in Congress today as the result of the Senate Interstate Commerce Committee's investigation of the coal strike.

Senator Gooding, Republican, of Idaho, chairman of the subcommittee which inspected the coal fields, declared that the industry, like agriculture, needed regulatory legislation to stimulate it. He suggested creation of a coal commission patterned after the Interstate Commerce Commission.

John L. Lewis, president of the United Mine Workers, recommended that legislation be enacted to permit coal companies to consolidate to wipe out "useless and high cost mines." Both miners and operators have agreed that the industry has too many mines and too many miners.

Commission of 13

One of the operators attending the hearing suggested that a commission of three mine owners, three union officials and seven congressmen, representing the public, be appointed to fix the basic wage scale. This proposal is being studied by operators and may be presented formally to the committee.

Declaring that the union had been unable to obtain relief from the executive and judicial branches of the government, Lewis told the committee that the workers were now turning to the federal legislatures for aid, by appealing only "for the right to live, the right to carry on collective bargaining and the right to maintain an American standard of living."

The committee planned today to go into the miners' charges that the big coal companies, including those controlled by the Mellon and Rockefeller interests, had broken their wage agreement with the union.

OLD GAS RATE TO STAND UNTIL APRIL

State Utilities Commission Upholds Claim of West Ohio Gas Co.

Columbus, March 8—Members of the State Utilities Commission today upheld the claim of officials of the West Ohio Gas Co that, under Ohio law, the company has a legal right to collect, until April 1, at least, the old $1.25 rate from its natural gas customers at Kenton.

Although the commission's order, issued March 2, last, ordering the company to substitute "at once" a new schedule providing for an 88 cent rate at Kenton in place of the present schedule, members of the commission today pointed out that Ohio laws give the company 30 days from the date of the order in which to appeal to the Ohio Supreme Court for a reversal of the commission's decree, or to take such other act, in accord with statutory provisions, as the company may determine upon.

Commission members today explained that their order for immediate substitution of schedules referred only to the filing of the new schedule in the offices of the commission and did not mean that the company was compelled to put the new rates into effect inside the 30-day period.

"Keep Your Tongue" is Advice of Speaker at Parent-Teacher Meeting

300 DELEGATES REGISTER FOR SESSIONS HERE

Convention of Central District Being Held Today at Central Junior High

GARRY C. MYERS SPEAKS

Declares Ceaseless Use of "Ought" Worst Sin Committed by Parents

"The parent who meets most successfully the problems which come up in relation to the behavior of their children, is the parent who can keep her tongue," Garry Cleveland Myers, Head of the Division of Parental Education, Cleveland College, Western Reserve University, told members of the Parent-Teacher Association at this afternoon's session of the central district convention being held at the Central Junior High School.

The ceaseless use of "ought" is about the worst sin which is committed by the average parent against children, the speaker declared. "It may be very bad to curse children and to swear at them, but it is far worse to say 'ought' to them when they have not the necessary habits nor urge to respond to the 'ought.'

The convention opened this morning, with a registration of more than 300 delegates. Attendance was expected to reach 500 persons by the night session, when Dr. Clayton C. Kohl, of the department of social science, Bowling Green State Normal College, will talk on "The Boundaries of School Education." At that time there will also be welcoming addresses by Earl Huxen, mayor of Marion, and C. B. Rayburn, superintendent of Marion County Schools.

Continuing Dr. Myers said:

"This business of parent education cannot get us anywhere so long as we take a holier-than-thou attitude. We might as well admit that we all are human; that there are certain weaknesses to which we all are heirs; that we differ from one another as parents only in degree in these respects. If we expect to become better parents we shall have to try to stand off, as it

BANDITS MAKE HAUL IN CHICAGO SUBURB

Two Men Get $700,000 in Negotiable Bonds and Jewelry

Chicago, March 8?—Two bandits early today obtained $700,000 in stock, $9,000 in negotiable bonds and $7,000 in jewelry in a holdup at the Borin Manufacturing Co. plant at Cicero, western Chicago suburb.

How they gained entrance to the plant, where mirrors, picture and mirror frames are manufactured, is a mystery. An engineer and watchman who were in the plant at the time were both guarded by one bandit while the other ransacked the safes in the office of the president, Nathan Borin, and the outer offices.

The bandits first encountered Leon Malinsky, engineer, whom they forced to lead them to the watchman, Anton Rynerd, while one bandit forced Malinowsky and Rynerd to stand with their faces to the wall and hands stretched above their heads in the president's outer office, the second robber went in search of a sledge hammer.

Returning, the bandit knocked the combination from the president's safe and took $8,000 in negotiable foreign bonds and $7,000 worth of jewelry belonging to Mrs. Borin from the safe. He then knocked the combination from the safe in the outer office and obtained $700,000 in signed common and preferred stock of the Borin Manufacturing Co., and $1,000 in negotiable bonds.

Tying up the watchman and leaving the engineer at liberty the men escaped. Malinowsky called police.

SOW ATTACK FATAL

Child Dies in Columbus Hospital From Her Injuries

Columbus, March 8—Injuries sustained when she was attacked by a brood sow today proved fatal to four-year-old Betty Lou Townsend, Portersville, Perry County, at a hospital here.

The little girl was brought to the hospital late Wednesday. According to her parents, Mr. and Mrs. Everett Townsend, the little girl was attacked by the sow when she picked up a suckling pig. The sow broke from its pen and in its attack tore away both of the little girl's cheeks, her nose, lips and left eye.

Retire? What For? Asks Holmes on 87th Birthday

Messages from All Parts of World Brought to His Door

WASHINGTON, March 8—Justice Oliver Wendell Holmes of the United States Supreme Court today greeted the advent of his eighty-seventh birthday with no hint of retirement.

The day dawned brightly for the venerable soldier, lawyer, writer and jurist, for it brought to his door messages from all parts of the world, all breathing respect for his distinguished services of the past and good wishes for the future.

A worker throughout his long and active career, he labored today as usual with the stilted verbiage of the briefs of hopeful lawyers and delved into the musty precedents which are the guideposts of the nation's highest court.

In one respect, perhaps, the day was not as pleasant as others, for during the past week a cautious family physician has kept him indoors to shake off a slight cold which descended on the crest of a raw, March wind.

Even a physician's orders, however, have not kept him idle. In the office he maintains in an old-

G.O.P. National Committee Had $600,000 Deficit in 1920, is Patten Testimony

Chicago "Wheat King" Tells Senate Inquirers Numbers on Bonds Given Him for Advancing $25,000 To Help Plug Up Financial Hole

Washington, March 8—The Republican National Committee had a deficit after the 1920 campaign of between $600,000 and $800,000, James Patten, the Chicago "wheat king", testified today at the Senate's inquiry into disposition of the Continental Trading Company's $3,080,000 Liberty Bond "slush fund."

Patten told of advancing $25,000 to the late Fred Upham, Chicago treasurer of the Republicans, to pay off a part of this deficit and receiving in return $25,000 in Liberty Bonds. Patten gave the Senate committee a list of the bonds.

Committee members said the bonds given Patten were part of those that Harry F. Sinclair gave Will H. Hays, Republican national chairman in the 1920 campaign.

Later Used Bonds

Patten said he made the $25,000 advance to Upham on Dec. 5, 1923. He subsequently used the bonds, he said, in a contribution to the Evanston Hospital, at Evanson, Ill.

The wheat king said "it was a mystery" to him where the bonds came from and how the Republican National Committee got them.

Patten said he had contributed to the Republicans "for a good many years." He produced in evidence, a bundle of cancelled checks covering his contributions. He also contributed to Democrats in local campaigns in Chicago, he added.

Senator Walsh, Democrat, of Montana asked Patten to explain the December 5, 1923 gift.

Indignant, He Says

"On that day, Fred Upham called at my office and told me there was a large deficit from the 1920 campaign," said Patten. "He said the deficit was several hundred thousand dollars, in the form of a loan from a New York bank. He said it was covered with Liberty Bonds.

"He said they wanted to sell the bonds, and he wanted me to give $25,000 to pay off this deficit and he would give me $25,000 in bonds. I gave him a check."

Patten said he was "very indignant" at the size of the Republican deficit.

"How much was it?"

"Between $600,000 and $800,000 as I recall it," Patten declared. "It made me very angry. I used bad language to Upham."

"Well, our information corroborates your belief," Walsh observed.

VELMA WEST BEGINS LIFE AT MARYSVILLE

Hammer Slayer, Resigned to Imprisonment, Assigned to Sewing Division

Marysville, March 8—Stitch-stitch-stitch went the needles in the sewing room at the Woman's Reformatory here today, and one of them was plied by Mrs. Velma West, 21, who had pleaded guilty to the hammer slaying of her young husband, T. Edward West, son of a rich Perry grower.

After arriving here yesterday, the weeping widow became prisoner No. 3181, and this morning was assigned temporarily to the sewing division.

Attendants reported that their prisoner had spent a quiet night, and seemed resigned to her imprisonment.

PRAY FOR GUIDANCE

Chicagoans, 100,000 Strong, Attend Church Seeking Relief From Crime

Chicago, March 8—More than 100,000 Chicagoans, it was estimated today, went to special church services here yesterday and prayed for divine assistance in leading the city "out of the jungle of crime."

The special prayer meetings were held in several hundred Protestant churches at the instance of the Chicago Ministers' Association. At each church citizens were reminded of their duty at the polls. All were urged to vote in the April primary and to pray for guidance in the selection of their candidates.

HOOVER ACTION IN INDIANA UP TO ADVISERS

Secretary Consents To Enter Fight If His Supporters Believe Course Is Wise

LOWDEN SENTIMENT THERE

Fear Watson May Invite Other Candidates into Hoosier State

Washington, March 8—The question of whether Herbert Hoover will enter the Indiana primary, opposing the favorite son candidacy of Senator James E. Watson, was put squarely up to his chief advisers in Indiana today.

Hoover has consented to enter the fight—and it probably will be a savage one—if his advisers and supporters, after a careful canvass of the situation in Indianapolis today, believe that such a course is wise. The decision has been left to them, it was stated at the secretary's office here this morning.

The time for filing in Indiana expires at midnight tonight.

It is anticipated here that the Hoover managers in the state will be guided largely by what they can learn of the intentions of the Lowden camp. The Hoover people would relish an out-and-out contest with Senator Watson himself, despite his control of the state organization, but there is a feeling that the Lowden managers may also jump into the fight as soon as Hoover's papers are filed.

Much Lowden Sentiment

There is admittedly a good deal of Lowden sentiment in the state, and Senator Watson, although himself a candidate, is known to lean more strongly to Lowden and Dawes than to the secretary of commerce. Hence the apprehension on the part of the Hoover managers that if they file too far in advance of the closing of the lists at midnight, Watson may extend an eleventh-hour invitation to Lowden and other candidates to come into the state for an old-fashioned free-for-all.

Against Watson alone the Hoover people are confident; against Lowden and Watson they are not so confident, for Indiana is an agricultural state with a considerable peeve over the way things have been going for the farmers under the Coolidge administration. Both Indiana senators supported the McNary-Haugben bill, which Lowden also indorsed, and which Secretary Hoover opposed.

If Hoover's name is entered in the lists, it was said today to be quite prob-

OLDEST K. OF P. IN CITY DIES AT HOME

George Manuel Meily, 80, Will Be Buried at 2 O'Clock Saturday

George Manuel Meily, 80, oldest member of the Knights of Pythias in the city, and member of the old Marion Star Hook and Ladder Company died at 5:10 o'clock yesterday afternoon at his home, 515 Pearl-st, following a fourteen-day illness of complications. Funeral services will be held at 2 o'clock Saturday afternoon at the home, Rev. Howard L. Olewiler, pastor of the First Presbyterian Church officiating. Interment will be made in Marion Cemetery.

Mr. Meily was born June 28, 1848, at Tiffin and was the son of William Meily, of Lebanon, Pa., and Mary Lauer Meily, of Mansfield, both deceased. He is survived by his widow, who was formerly Miss Anna M. Reicher; two daughters, Mrs. W. H. Foltz, of Lima, and Mrs. A. M. Hunter, 545 Pearl-st; one son, Weidman Meily, 343 Columbia-st; two sisters, Mrs. M. S. Cunningham, of Toledo, and Mrs. D. L. Stauffer, 600 N. State-st; one half-brother, William Meily N. Main-st; and three grand-children, Janice Grider, of Florida, Donald Hunter, 545 Pearl-st and Donivan Meily, 343 Columbia-st.

Mr. Meily was a member of the First Presbyterian Church and his lodge affiliations were with Canby Lodge, No. 51 Knights of Pythias, in which he held a life membership. He served with the old Marion Star Hook and Ladder Company of which James Leis is now the only surviving member. Mr. Meily followed the occupation of a painter.

Indian Braves Fail To See Good of Squaws Voting

OLD TOWN, Me., March 8—The American Indian is fast becoming Americanized!

Young suffragettes of the Penobscot Indian tribe, who had strived to upset traditions by gaining an equal vote with the braves in the government of the tribe, had been defeated today by the braves and some of the squaws.

From the time when the Indian roamed supreme over the land, the braves have held solemn powwows around the campfires. The women have never been expected to do anything more than the work. Now they can continue to do that.

Party Again in State of Affluence With Money in Pockets

Washington, March 8—The Democratic party, which has been chronically more or less "broke" since the 1920 campaign, is again in a state of affluence, and whoever emerges at Houston with the presidential nomination will be able to face the electorate without a party deficit looming up in the rear.

Jesse H. Jones, the party treasurer, has reported to Chairman Clem Shaver that a total of $508,500 has been raised and pledged to put the party on its financial feet, pay all its indebtedness, and still leave a tidy margin with which to inaugurate the 1928 campaign.

The chief item reported was the $200,000 which Houston citizens raised to finance the convention.

DYKEN IS GIVEN LIFE SENTENCE TO PRISON

Pleads Guilty to Second Degree Charge of Murdering His Mother

St. Clairsville, March 8—Still asserting he did not intend to kill his mother, Andy Dyken, 17-year old boy of Methodist Ridge, today pleaded guilty to a charge of second degree murder, and was sentenced to life imprisonment by Common Pleas Judge W. W. Cowen.

Sheriff Hardesty announced that Dyken would be transferred to the Ohio State Penitentiary, Tuesday, when he will become the youngest "lifer," in the state institution. Dyken had been indicted for first degree murder, but upon advice of his attorneys, pleaded guilty to the lesser charge with the permission of the county prosecutor and courts.

After sentence was passed, young Dyken, looked over the crowd in the Belmont County courtroom and espied his father.

"Well, I suppose the old man will be satisfied now," the youth remarked.

Ever since the fatal shooting of his mother, Mrs. Mary Dyken, last Dec. 6, the boy had maintained he had no intention of killing her. It was reported however that young Dyken exhibited no remorse when told his father had been seriously wounded.

CAMPAIGN WILL BE "ALL-OHIO" AFFAIR

Willis To Use Only Speakers from Buckeye State; Crabbe Joins Hoover

Columbus, March 8—In keeping with plans to make the campaign in the Buckeye state on behalf of U. S. Senator Frank B. Willis for president an "All-Ohio" affair, it is probable that the list of speakers will be restricted to Ohioans, Col. Carmi A. Thompson, Willis' campaign manager, stated today.

Thompson said he did not expect Lowden, Curtis or Watson to speak in this state during the pre-primary campaign which terminates with the presidential preference primaries to be held April 24.

Announcement made today by Hoover leaders that former Attorney General C. C. Crabbe, now practicing law in Columbus, had aligned himself among the voters who are supporting the candidacy of Secretary Hoover, was verified this afternoon. Crabbe did not indicate whether he will make any addresses, or take other active part in the campaign.

FIND BODY

May Be Miss Viola May, Missing Since Feb. 7

Dover, March 8—Physicians performing an autopsy today on the limbs and lower torso taken from the sands of the Tuscarawas river near here, reported they were not certain if the members were those of a male or female, it was declared by Coroner J. F. Lewis.

The members, thought to be those of Miss Viola May, 23, missing since Feb. 7, were found late yesterday by Earl Hohenbaugh, a trapper, near Port Washington, in the sand five feet from the water line.

Miss May disappeared the night before her brother-in-law W. H. Herron, 41, is said to have confessed to having attacked and choked her, and then dropping her body into the river after discovering she was dead.

A small bit of blue serge similar to the suit the girl wore on the night she was killed, was found with the body, Coroner Lewis said.

PROGRAM HERE WILL INCLUDE 16 PROJECTS

Construction of 41.38 Miles and Surface Treating of 22.7 Miles Scheduled

LEAVENS SUBMITS DETAILS

Twelve County, Two Joint County and Two Township Roads Up

One of the most extensive road improvement programs in the history of Marion County is planned for this year, according to details made public today at the office of County Surveyor C. R. Leavens.

The schedule of work, which includes 16 road construction projects 41.38 miles in length and surface treating of 22.7 miles of highways already improved, is estimated to cost $322,300.

The program for new construction includes 12 Marion County roads, two joint county projects and two township roads. Plans are under way, it is stated, for a number of other township projects which, if finally authorized, will result in a substantial increase of the 1928 improvement record.

Nearly Completed

Plans for all but two of the 16 road projects have been completed and filed with the commissioners by Surveyor Leavens, who will supervise all of the improvement work.

Yesterday the surveyor submitted plans for five roads and also for surface treating of the 22.7 miles of highway listed in the year's maintenance schedule. The plan is to surface treat all improved roads on an average of once every two years. Last year the treatment program included 81 miles.

The surface treatment plans were approved by the commissioners yesterday and I o'clock, April 5, was set as the time for opening bids. The work is estimated to cost $15,000.

Other projects for which plans were submitted yesterday were:

Somerlott-Hoffman-rd in Pleasant and Richland townships, 1.9 miles, estimated cost, $12,000, hearing set for 1 p. m., March 26.

Hearing March 23

Vernon Heights-blvd, .32 of a mile in Marion township, estimated cost for asphalt surface, $16,000. Hearing set for 10 a. m., March 23. This improvement will extend from the west line of the Vernon Heights addition and connect with the Harding Memorial-blvd. The surveyor's plans include estimates on macadam and reinforced concrete.

SEEK DEATH PENALTY IN MAIL ROBBERIES

Postmaster General New Wants Congress To Stiffen Penalties

Washington, March 8—Aroused by the bandit raid on a Grand Trunk mail train near Chicago recently, Postmaster General New announced today the postoffice department will advocate legislation authorizing the death penalty or life imprisonment for robbery of the mails.

Representative Kelly, Republican, of Pennsylvania, announced after a conference with New he would introduce a bill providing the punishment sought by the postmaster general. The present maximum punishment is 25 years imprisonment.

"Attacks upon the mails by armed bandits have become so frequent and methods employed so ruthless, it is my unqualified opinion that more drastic punishment should be provided," said New.

"The death penalty should be imposed upon any man who uses firearms in attempting to rob the mails, or who jeopardizes the lives of postal employes by using dangerous weapons."

ESCH VOTE LATER

Senate Likely To Cast Ballots on Confirmation Next Week

Washington, March 8—A vote by the Senate on the question of confirming the reappointment of John J. Esch, Jr., of Wisconsin, as a member of the Interstate Commerce Commission will be taken next week.

The Senate Interstate Commerce Committee recommended rejection of the appointment by a vote of 11 to 7. A minority report, being written by Senator Fess, Republican of Ohio, will defend Esch's services on the commission and urge his confirmation.

HE'S ALWAYS astonishing people by introducing a lanky grandson or a flapper great-niece. For he's one of those men who seem young. With a clear skin, a springy step. And a laugh like a boy's. Actually he's reaching the age when most men think about retiring from business.

"Why should *I* retire?" he asks. "Never felt better in my life. All I ever need to keep well is Nujol. And that's not *medicine*." He's right. Nujol is a natural substance, perfected by the Nujol Laboratories of the Standard Oil Company (New Jersey). It contains absolutely no medicine or drugs. But it keeps the body functioning normally. For Nujol not only prevents any excess of the body poisons (we all have them) from forming, but also aids in their removal.

There's no age limit on Nujol. Doctors put babies on it soon after they're born. School children take it. Mothers and fathers. And the very old folks, too.

Maybe you think you feel perfectly well. Perhaps you suspect you don't. Anyway, try taking Nujol and see if there isn't a difference. Take it for 3 months. It can't do any harm to try. And it *might* do a lot of good. Everyone else who's tried it says so.

Be sure you get the genuine.

NURSE EXAMINES 297 CHILDREN IN MONTH

Report for February Is Submitted to City Board of Health

The examination of 297 school children during February as a part of the annual inspection plan being carried out in the school health program, was contained in the report for the month submitted by Mabel Hastings, city health nurse at the meeting of the city Board of Health held in the office of the City Health Department yesterday afternoon.

Her report also showed the examination of 115 children for pediculosis. She also made 21 school visits during the month, and took 24 patients to the medical clinic and nine to the dental clinic. Her activities, according to her report included four calls in medical cases, three calls in parental cases, 29 calls in surgical cases eight in structive calls for investigation, three calls in fracture cases, and three calls in orthopedic cases.

One orthopedic case was taken to the children's hospital at Columbus for treatment during the month by the health nurse and 73 children were weighed for the nutrition class.

JUNIOR NOT JANITOR

Due to a typographical error the sentence referring to Wallace K. Schneider's position at Ohio Wesleyan University read "janitor" instead of "junior" in an article appearing in Tuesday's issue of The Star.

REFUSE MILK DEALER USE OF WRONG CAPS

Board of Health Stands Pat on Regulations Now in Force

That they have no intention of letting down the bars, even in the smallest degree, in the campaign for reliability in the quality of milk to be sold in the city, was indicated by members of the Board of Health at the monthly meeting held in the office of the City Health Department yesterday afternoon when they refused to grant permission to a local milk distributor to use bottle caps on which had been printed through an error the words "Raw Milk" when it should have read "Raw Milk."

The distributor, Dr. Gruber, milk inspector, reported to the board that he received a barrel of these caps and was seeking permission to use them on his bottles. It was the contention of the board, however, that the caps would be misleading and would not countenance their use.

Dr. Gruber also reported that he had made 60 inspections of farms and 16 inspections of pasteurizing plants during the month of February. Also that he had granted 57 permits to sell milk in the city and had refused three. Fifteen cows were tested for tuberculosis during the month with three reactors, which were shipped to Cleveland to be slaughtered under the direction of a federal inspector.

Average butterfat tests made by Dr. Gruber during the month showed 4.23 for pasteurized milk and 5.1 for raw milk while the average bacteria count for pasteurized milk was 13,000 and for raw milk, 32,000.

13,787 BOOKS NOW IN CITY LIBRARY

Sixty-Seven Volumes Added to Shelves in Month; 13 Are Gifts

With the addition of 67 volumes during the month ending Feb. 29, there are now a total of 13,787 books in circulation at City Library. A total of 19,142 books have been accessioned.

Fifty-four of the new books were added by purchase and 13 by gift. The list included 40 books of the adult fiction class, 14 adult class books, 11 juvenile class books and two volumes of juvenile fiction. Eighty-two books were mended.

Circulation for the month totaled 6,043 volumes, 3,208 of adult fiction, 1,711 of juvenile fiction, 570 adult class and 494 juvenile class.

One hundred and forty-three new patrons registered during the month and 82 withdrew, making the total number of registered borrowers now 5,780 over 5,179 last month.

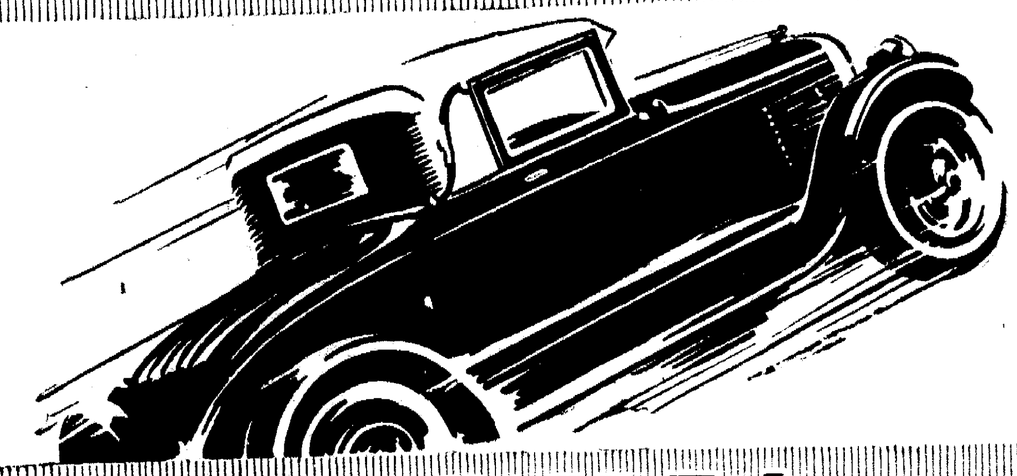
To A Million Boys and Girls Between 17 and 70



The Automobile That Talks The Language That Only They Can Understand

FOR a million boys and girls, between seventeen and seventy, Reo builds the Wolverine.

For them, especially, because Reo knows that they want to swing up to country club porches with the dash of cavalry captains.

For them, especially, because Reo knows how they must be growing tired of seeing and driving just nickel-plate—just fancy headlights—just two-tone color jobs.

So Reo builds the Wolverine to talk the language that all true boys and girls can understand—language dealing with the important business of getting somewhere.

The Reo Wolverine steals its way into your heart as a star halfback steals his way into the heart of the coach. It starts fast—goes fast—has a wonderful change of pace—and it gets somewhere.

Yes, Reo builds the Wolverine to be the automobile all boys and girls have wished for.

Builds it to be an automobile such as no one ever expected to drive into his or her own garage for so low an F. O. B. price as $1195 or $1295.

Try it out—over any roads—in any company. You'll be very much surprised.

BUT ONE QUARANTINE CASE DURING MONTH

February Established Record, Commissioner Declares in His Report

With but one case for quarantine reported during the month, February established a record in the small number of contagious cases, according to a report for the month made by Health Commissioner Dr. J. W. Weiser at the monthly meeting of the Board of Health held in the office of the City Health Department yesterday afternoon.

The one case reported was that of a young Columbus woman, 20 years old, who became ill with diphtheria while visiting at the home of her parents here.

Of 172 first grade pupils examined [illegible] in the city, during the month, the health commissioner reported he had found 90 suffering from defective tonsils, 86 from defective teeth, nine from defective vision and three from defective hearing. He also reported five mouth breathers and eight suffering from skin disease and one each from thyroid trouble, cyanosis, growth under the tongue and marginal eczema. Six of those suffering from defective tonsils had their tonsils removed and one had been given dental care.

The health commissioner also commended Dr. E. L. Brady for the cooperation he has given in connection with the school health work. "Dr. Brady during the past year has performed fully 30 tonsil operations free of charge and I feel that he deserves a vote of thanks from the board," Dr. Weiser said.

The commissioner reported he had examined 10 food handlers during the month.

OPEN HOUSE HELD BY EAGLES' LODGE HERE

Two Hundred and Sixty Persons Are Seated at Banquet Table

Open house was held by Buckeye Aerie No. 337, Fraternal Order of Eagles, following its weekly session last night, a program of entertainment being provided for lodge members and their guests.

About 260 persons, including members of Buckeye Aerie and visitors, were seated at the banquet served at 10 o'clock as the concluding feature of the program.

Entertainment included a legerdemain act by two local amateur magicians. Euchre was played by many of the guests during the evening.

In the short business session which preceded the open house program, 17 applications for membership were received. These applicants will be included in the class of 100 or more candidates to be initiated the night of March 21. The meeting will celebrate the twenty fifth anniversary of Buckeye Aerie.

Arrangements were completed for sending a delegation of about 50 local Eagles to the meeting of Mt. Gilead Aerie next Monday night as an escort for the state president, John Abel, who will make an official visit to Mt. Gilead. Plans for entertainment of Abel and other Marion visitors are now being made by the Mt. Gilead lodge members.

SAVES MILLIONS

Through the efforts of Master Sergeant Paul R. Nelson of Fort Totten, New York, who has invented a new method for the operation of mine control cables, the Government will save millions of dollars. Nelson's invention reduces the number of wires in the cable from nineteen to one. The difference in size is clearly shown in the picture.

FAMOUS ACTOR DIES

William H. Crane Succumbs in California; On Stage 54 Years

Hollywood, Cal., March 8. William H. Crane, 83, illustrious stage comedian of the old school of actors, died here yesterday following a brief illness.

The veteran actor, who quit the stage in his seventy-third year after treading the boards for 54 years, has lived in retirement here since 1918.

His wife was at his bedside when the last curtain was rolled down on a colorful career.

HERO TRAVELED FAR TO SEE BUFFALO BILL

Cleveland—Taking for his inspiration, the late "Buffalo Bill," Count Felix Von Luckner, picturesque German war hero who sank many allied ships during the World War related on a visit here, how, at the age of 13, he started for America to find his hero.

This famous German war hero asserted he reached Col. Cody's Denver home only after he (Von Luckner) became a champion prizefighter in an Australian province, sailed in British, Russian and Norwegian ships and became a member of the Salvation Army, "in my endeavor to keep my promise to my parents that some day I would be a lieutenant." When he arrived at Buffalo Bill's home he found that his idol was in Germany.

More years of travel and Von Luckner finally gained a lieutenacy in the German navy, the first German naval officer to rise from the ranks in the Imperial Navy of his country.

He told how he transformed an old sailing ship into a famous raider, sank $25,000,000 worth of allied shipping without the loss of a single life, either of his own forces or of the enemy.

LONDON COUNTY COUNCIL USES SEA-WEED CURTAIN

London—Seaweed fitted behind the curtains of the Council Chamber, of the London County Council, has proved to be a genuine sound-absorber.

Previous to the experiment the reverberation in the Council Chamber was two seconds in length when empty, and 1.75 seconds when it was full. Now the reverberation is 1.7 and 1.32 seconds respectively. Experts declare it is possible to reduce it to just over a second.

To reduce it to less than a second would make the Chamber like an open platform and then it would be difficult for the speakers to make themselves heard.

Likens-Pole Lane-rd, Marion, Claridon, Scott and Grand Prairie townships, four miles, $25,000.

Connected sections of three roads in Salt Rock township, 7.1 miles, $23,000.

This is one of the two township road improvements planned by township trustees in co-operation with the county. The other is the Harris-Mt. Olive-rd in Bowling Green township, a 2.45 mile project estimated to cost $8,600. Hearing on this project will be held by the Bowling Green township trustees in the near future.

Joint Hearing Soon

The second joint county road improvement planned will be taken up at a hearing to be held here soon by the Marion and Morrow County commissioners. This improvement is to be 4.3 miles in length and is estimated to cost $30,500.

The St. James-rd improvement planned in Richland Township, 2.55 miles in length and estimated to cost $17,500, has been authorized by the commissioners but is held up temporarily by an injunction suit.

The Harding Memorial-blvd, for which plans were filed Tuesday, is to be .36 of a mile in length, and the cost, for asphalt construction, is estimated at $44,000.

BIRTHS

Announcement was made today of the birth of a son Monday morning to Mr. and Mrs. William R. Boblenz at their home near Agosta. The baby has been named William Albert.

The birth of a son to Mr. and Mrs. Joseph Wilson at their home, 411 E. Mark-st Sunday night, was announced by the parents today.

FLYERS HOP OFF TO SET NEW ENDURANCE RECORD

Detroit, March 8—Eddie Stinson, World War flyer and George Haldeman, trans-atlantic aviator, hopped off from the ice of Lake St. Clair in an attempt to establish a new world record for endurance flight.

Stinson and Haldeman took off at 8:27.

They hope to remain in the air 60 hours, although the present record for sustained flight is 52 hours and 30 minutes and is held in Germany. To set a new record the two aviators must remain in the air at least an hour longer than the present record.

bench of the court in the capitol was prepared for him.

"Mine is just an old story told 86 times and this year for the eighty-seventh time," was the message sent by Justice Holmes to one who appeared more concerned than he over his birthday.

Congress provided that justices could retire at 70 on two-thirds pay. Justice Holmes is said to have told a friend that "I should die if I quit work." No suggestion that he retire has ever come from his associates on the bench, it is said, because he is one of the court's hardest workers, as well as one of its most brilliant minds.

Often referred to as a great liberal, Justice Holmes has been noted for his humane interpretations of the constitution and the law.

To make life livable for its people is a great duty of the state, he has said. He recognizes all government as a growth, with public opinion as the supreme arbiter.

Born in Boston, Mass., March 8, 1841, the son of the famous New England poet, Justice Holmes graduated from Harvard at 20. Twice wounded, he reached the grade of captain in the Civil War. He was named to his present post on Dec. 8, 1902, by President Roosevelt.

able that the action will be taken very late tonight, there may even be the spectacle of the two camps—Hoover and Lowden—watching each other until a few minutes before midnight.

Indiana will have 23 delegates in the Kansas City convention—a stake worth fighting for in the opinion of the Hoover managers. However, they do not want to engage in a spectacular primary battle in a pivotal state like Indiana unless they are fairly sure of emerging with their candidate's prestige undamaged.

A battle like Ohio, where Hoover is pitted against Willis, the favorite son, alone, is more to their liking. There, if Hoover emerges with 15 to 20 delegates, the result can be acclaimed as a real victory. It will prove, the Hoover managers contend, that their candidate is strong enough to invade another candidate's own state, and in the face of the opposition of the state organization take part of the state.

The situation in Iowa, where Lowden's candidacy apparently has carried everything before it, also has operated to make the Hoover managers somewhat cautious about Indiana. For Indiana, like Iowa, is predominantly agricultural.

THEATER BUILDING GOES ON RAPIDLY

Steel Workers and Bricklayers Aided by Ideal Weather Conditions

Favored by ideal building weather, construction work at the new Palace Theater at W. Center and Campbell-sts, is progressing rapidly. Some steel has been erected at the front of the building site while a corps of bricklayers is laying hollow tile for the rear and side walls. A veneer of dark brick is being laid as the outside wall.

Concrete for the stage has been poured as well as for all of the foundation with the exception of the south end of the east wall. The erection of the steel is being done by the M. M. Schirtzinger Co. of Columbus. Six steel frames that will support the foyer of the new theater have been placed while preparations are being made for the erection of the larger steel beams.

MAN KILLED

One Dead After Gun Battle In Chicago Cabaret

Chicago, March 8—One man was shot to death and another wounded probably fatally, in the Dreamland Inn, a west side cabaret, today.

The dead man is believed to have been Angelo Luci, a man of unknown occupation. Fifteen persons, including two women, fled from the inn after the shooting, according to a witness.

When police reached the scene, the wounded man had disappeared. An hour later Frank Siciliano was taken to a nearby hospital by his brother-in-law, Daniel Boffin. Siciliano had been shot through the stomach.

Boffin said the man stumbled into his house early this morning and asked to be taken to the hospital. Boffin did not know how he had been shot, he said. The wounded man would not talk.

CONDITION UNCHANGED

Caledonia, March 8—The condition of Mrs. Adam Clouse of near Canaan who has been seriously ill for several weeks is reported to be unimproved.

Blackheads

Most stubborn cases of blackheads, pimples and blotches yield to Rowles Mentho Sulphur. It's the magical combination—sulphur for killing the germs and clearing the skin, menthol for healing the sore and broken tissues. Clears up skin eruptions—even burning eczema—amazingly quick. Leaves the skin healthfully white and smooth. Prove it on your own skin. Rowles Mentho Sulphur is inexpensive and all druggists supply it in jars ready to use. Be sure it's Rowles.—Adv.

were, and look at ourselves as objectively as we are able. Then we may hope to make ourselves a little less annoying to our children, a little more esteemed by them. We shall, therefore, not only strive to analyze and charge ourselves; but in this effort we inevitably will arrive at ways of understanding far better how our children feel and act toward us, and how they act and feel toward the other people of the world.

Cannot Be Ideal

"We can never hope to be ideal parents. Our human frailties stand in our way. But by taking thought we can reduce them and improve ourselves in our profession.

"By nature we interpret everything and everybody in terms of our experiences. We are likely, therefore, to attach undue importance to ourselves; we are almost certain to act toward our children as if they were of little consequence; so when they ask us many questions, seeking honest information, we may be annoyed by them. When they normally express themselves in our presence we are prone to contradict them or to interrupt them. Unless we are keenly on our guard we may be very discourteous. If to our friends we were as inconsiderate and as boorish they would ostracize us. Nevertheless, we are inclined to demand that our children manifest conventional respect for us. We also manifest our feeling of superiority, when off guard, by laughing at the misfortunes and the difficulties of interpretation and expression of our children.

Parents Talk Too Much

"We rarely compliment them for their good behavior, we seldom give specific worthy praise; but we are overgenerous with our condemnation and our verbal chastisements. We are keenly sensitive of everything they do in accord with what we expect of them; we scold, we nag, we sermonize. Everything we tell them of the conduct ills are announcing our superiority. We parents talk too much. We might as well admit it. But hardly do we realize to what degree the average child is tormented by his parents' tongues.

"The tiny infant may turn at once from a forbidden object of activity in response to a quick sharp 'No.' This verbal weapon works so well that it is used over and over again. As it weakens there is a tendency by the parent to make the 'no' more vigorous, more snappy and to repeat it until the child is so annoyed as to respond. Out of such practices develop scoldings, yellings, naggings.

"Perhaps the worst offense against a child is to exhort and sermonize to him in a scolding manner. Parents who will check up on themselves will find that nearly all the advice on conduct which they give to their children at such times and in such a manner is not likely to be accepted by the child. In instances of this sort the child closes his ears with the attitude, 'Go ahead; get it off your chest; and be done with it as soon as possible.' Most words so given by parents to their children are not only of no value; they are a nuisance and a menace; they drive children into attitudes of disrespect.

Requests More Effective

"Many a parent wonders how she can keep her child from talking back to her. Let her quit talking back to him. Parents as a rule insist on having the last word; they stoop to engage in verbal conflicts with their children.

Most word controversies are set off by commands. The child generally finds that when he can lead his parent into an argument he wins. Many a command is given that is unnecessary, and certainly many a one is given without consideration of the likelihood of its being obeyed. Habitual disobedience is the consequence.

"Most commands can be avoided. A request usually is more effective. When we make a request, and really mean it as such, we need to do nothing if the request is not acceded to. When we make a command we must punish if it is not obeyed, or we must repeal it and admit our error. Otherwise we make a mockery of law and order. If we are very sure we want to make a command, and that we have available adequate discomfort to the child if it is not obeyed, then the only thing to do is to make sure the child has heard it and to keep quiet. Repetition of commands, and arguing with the child after they are made, only antagonizes him and teaches him to hate us. It's the talk that does the damage, practically every time."

Mrs. C. E. Kendel of Lakewood, president of the state association, who was also a speaker at this afternoon's session, said in part:

"Wherever there is a P. T. A. we hear much about the cooperation of the parents and teachers, the opportunity offered for closer and wider acquaintance, but the word partnership seems to carry a new and deeper meaning.

"One does not go into business with a total stranger, one becomes familiar with what the other has to offer. Capital, influence, personality, special training are all taken into consideration, and on a basis of knowledge and understanding the partnership is formed.

Give Information

"The same reasons for a partnership of parents and teachers should hold good, and we know that gatherings such as this and Parent-Teacher meetings all over the country give us all the information for the forming of this partnership.

"Both have much to learn from each other. To the mother it is always my child, an individual, and to the teacher it is the group and that child's adjustment to the group that is important.

"It is the business of the school that the pupils shall attend every day, and when it is shown that a truant from school is really only trying to escape from an intolerable situation in the home, the necessity for co-operation is instantly recognized.

Limited Only by Needs

"The scope of the educational program of the National Congress is limited only by the needs of your community, safety, recreation, social hygiene, mental hygiene, health programs, 'summer round-up,' all phases of home service, child study, music, art have all been covered with inspiring programs written by experts in their line. There is endless variety in the program, and as many methods as there are types of communities. There are programs for rural, suburban and cities with the possibility of a complex organization ranging from the pre school study groups to the high school association composed of groups for each class. Sometimes this work seems to go slowly, perhaps lags so far behind that it looks as if it would never catch up, when a change in plans or leaders will give new impetus, and off we go again, and pass others on the run.

"The work of a parent teacher association is done in our leisure hours, it is a form of recreation we choose to take part in, and this very fact shows that the rank and file of the members come from the great group of humanity known as the 'common people,' people who have their work to do every day whereby the bread of life is earned, and then have time, in their leisure hours, for their recreation, to enjoy the work of a social gathering for mutual benefit. Every one gives to some other person and all are enriched.

University for Parents

"The National Congress is a university for parents, and the annual national convention offers an intensive training school for parents' problems in the home, and for parent-teacher workers in local associations and in council work."

Other features of the afternoon session were the talk by Mrs. Harry Cope, chairman of Art Education, Ohio Branch, on "Art Education," and an address of welcome by Jesse H. Mason, superintendent of Marion Public Schools. Council and local reports of the year's work were given and numbers by Harding High School Band, a physical culture exhibition by a group of local school children, and a drive to the Harding Home and Tomb comprised the remainder of the afternoon's entertainment.

Introduce New Song

"The Tree of the Parent-Teacher Association," a new national song, was introduced by Mrs. George Turner in a beautiful vocal number during the afternoon.

"Health service, health education, and physical education are the three essential factors to a well-balanced health program for Ohio schools, said C. L. Brownell, director of physical education in Ohio, in his talk, "Plans for Physical Education in Ohio" at the morning session.

"In presenting a health service program," Mr. Brownell continued, "attention should be given health of teachers as well as students, the special health service training necessary in the teacher's program, health examination, and instruction of the parent. This work should be placed under direction of the agency best qualified to carry out the health service program in your particular community."

Deals With Habits

"Health education has to deal with forming the right habits, attitude and knowledge, both personal and for the community. In the minds of public school children and may be brought about through health examination, special training and the forming of health clubs."

"The physical education division of this vast health program has two functions, the developing of robust health on the part of the individual, and the developing of citizenship and character. Athletics and school activites will be found of value in the teaching of physical education, particularly athletics for older children when rightly used, that is to include every child and not only those most proficient.

Would Examine Teachers

Mr. Brownell stressed in particular the importance of training teachers in health service and of insuring the good health of the teacher by the institution of a health examination for every woman or man upon entering a teacher's training institution.

Mrs. E. G. Byrne of Dayton, publicity chairman, gave a talk on the value of publicity in the Parent-Teacher work and Mrs. Ethel Peters Simon, extension secretary of the Ohio Branch, a helpful talk on "Program Planning." The session opened with registration, invocation by Rev. S. S. Hardy, rector of St. Paul's Episcopal Church, with an assembly singing, and numbers by the grade school orchestra and children's chorus.

Work of the vocational, manual training, domestic science and other departments of the local school system have been attractively arranged in exhibits in the entrance hall at Central. The display also includes scholastic work of the lower grades.

LINDBERGH OFF FOR UNANNOUNCED POINT

Flier Remains Taciturn and Uncommunicative Concerning Plans for Future

Washington, March 8—Still taciturn and uncommunicative about his future plans, Col. Charles A. Lindbergh took off from Bolling Field at 12:01 o'clock today for an unannounced destination.

His departure ended a stay of 48 hours in the capital, through all of which he remained in seclusion at a private club, with the single exception of a visit to the State Department yesterday. He would neither confirm nor deny reports that he was planning to enter a Baltimore hospital for a rest.

Lindbergh was accompanied in the Ryan plane by Henry Breckenridge of St. Louis, one of Lindbergh's financial backers, and Maj. Thomas P. Lanphier, commander of the Army Flying Field at Selfridge Field, Mich.

All declined to state where they were going, but it was variously reported that either St. Louis, Detroit or New York was the destination.

MEMBERS OF CLASS ARE ENTERTAINED BY MRS. MAY

Caledonia, March 8—Mrs. Joe May entertained members of the sophomore class of the High School and the class supervisor, Miss Gladys Brenizer, at her home Monday night for the pleasure of her daughter Leona who was celebrating her sixteenth birthday. Miss May was presented with many gifts. A large cake with a candle for each year was a feature of the luncheon served by Mrs. May, assisted by Miss Zoa Haines. An enjoyable time was spent with music cards and games. Those present were Leona Pace, Naomi Clouse, Lucile Rinker, Leontine Swisher, Ethel Fink, Edwin Baird, Paul Pace, Loy Likens, Wilfred Kaelber and Lowell Douce.

TO CONFER DEGREE

Caledonia, March 8—The first degree was conferred on one candidate at a regular meeting of Oliver Lodge No. 447, F. and A. M.. A good attendance was present and arrangements made for a special meeting to be held at the lodge rooms on Saturday night. The Fellow Craft degree will be conferred on two candidates.

EXTEND INVITATION

Caledonia, March 8—At a well attended meeting of members of Calautha Lodge No. 116, K. of P., held in the hall Tuesday night, one application for membership was received and routine business conducted. Two visiting knights from Marion were present and extended an invitation to the local lodge to attend a meeting of their home lodge to be held this Friday night, when a class of candidates will be given the second degree.

PARTIES UNABLE TO AGREE TO MERGER OF COMPANIES

Youngstown, March 8—Failure of the negotiators to reach an agreement on details has resulted in the calling off of the proposed merger between the Youngstown Sheet and Tube Co. and the Inland Steel Co., it was learned here today.

James A. Campbell, president of the Youngstown Sheet and Tube concern, made the announcement, simply stating that parties to the proposed consolidation, had been unable to agree.

Daily Proverb—"It matters less to a man where he is born than where he can live."

How time flies! Here's that income tax report day but an even week away.

Anyway the present campaign has demonstrated that the country isn't anywhere near so denuded of presidential timber as it was assumed to be.

If soviet Russia really wanted to make divorces popular with the women folks over there it should have marked them at forty-nine cents instead of half a dollar.

Soaring twenty points, Canadian Ford stock went to 580, Wednesday, establishing a new high mark. There wouldn't be much chance that the present altitude record would stand very long, were Mr. Ford's planes able to soar like his stock.

We are wholly in accord with the view of the New York tailors that a man may dress well at an expenditure of not over $200 a month. As a matter of fact, we are personally acquainted with one or two who do on even less than that.

Newspaper men, photographers and field employes were the only ones to greet the Columbia when it reached Havana, and Miss Mabel Boll, even though wearing her helmet, didn't attract any attention in the city. That's what we call taking the joy out of living for Mabel.

A European correspondent of the Cleveland Plain Dealer says that European disarmament "is in graver danger of being completely wrecked on the rocks of insincerity and lack of good intentions at Geneva at present than at any other time since discussions began." In other words, there is the gravest danger of the truth developing and making manifest that the leading powers in the League of Nations are not hankering for disarmament.

Let's Beautify a Bit.

With spring so near at hand, the time is ripe for the giving of a little consideration to the cleaning-up and beautification of city premises.

We are not referring to the annual spring clean-up, which has become a sort of a civic movement, wherein citizens collect old boxes and bottles and cans and other unsightly objects and place them on the curb in boxes and barrels to be hauled away by the municipal wagons. Nor do we refer to the cleaning of the streets and alleys, which, it may be said in passing, are sorely in need of attention. The city authorities will look after such matters.

We are appealing herein to those occupying properties in our residential districts, whether they be home-owners or renters. We would have them give a little more care to the properties they occupy than many of them ordinarily receive. Our plea is that all such properties, and vacant lots adjoining residential properties as well, be thoroughly cleaned and, wherever possible, beautified. It may be that a lawn needs a little attention. There may be a bare place which may be made to conform to the remainder of the lawn by the sowing of a little seed. Possibly a lawn grade is not so sightly as it should be. If such lawn grades are not along paved streets and consequently curbed, they can be squared and made much more sightly. Again, many lawn grades along curbed streets need attention. Some may need leveling down to the curb. Some may need a little filling. Some may need a little raking and a little seed. It is so easy to make our properties attractive to the eye, if we but think so.

At trifling expense, and often at no expense at all, we may plant a vine or bit of shrubbery here and there which will add immensely to the attractiveness of our homes. And why not a few flowers in the back yard in a measure to even up its appearance with the well kept lawn in front? Some bloom runs into money, and this is true of some shrubbery. But there is always bloom and shrubbery to meet the condition of one's purse. And often our neighbors are glad to supply us when bounteous nature forces the thinning out of their flower beds and the cutting out of some of their shrubbery.

We have had some experience in the past in connection with the beautification of our city. We have learned how easily the unsightly may be changed into a thing of beauty. We know by experience and by observation that "where there's a will there's a way." We wish the people of Marion generally would devote to will. We would like to see the city once again as beautiful as we have seen it in the past.

Let's try to accomplish that end the coming spring and summer.

Crime Costs $13,000,000,000 a Year

Crime is costing the people of the United States [illegible] Federal Justice Wesley L. Jones told the Sons of the American Revolution in Washington. [illegible]

[illegible] "Reports show 12,000 murders during the last year in the United States," the judge told the jury. "In Chicago, statistics show the murder of six policemen for every criminal convicted for the murder of a policeman."

And then Judge Landis brought up a point too often overlooked by many who actually look upon themselves as good citizens even when engaged in the breaking of a law. He said:

"You are not to use any prejudice against one law or the other. Some of us like this law and do not like another, but as long as a law is on the books it must be enforced.

"This is a country ruled by the majority, and the majority passes the laws. Criminals represent less than one per cent. of the population, so it is obvious that this class is not ruling."

Herein, even if we may not agree with the judge that the majority rules in this nation, is made plain the great trouble with our people today. They are not consistent. They, or a great proportion of them, want others to obey the law, but they themselves do not want to obey it. They want life and property protected and safeguarded, and yet they aid, and abet, and encourage by their dealings with lawbreakers, the development of a criminal element which wars against human life and property rights alike. If so-called good citizens would cease to be law-breakers, if they stopped making, or trying to make, fish of one law and fowl of another and respected all laws, it would not be long until crime would be greatly reduced.

There is but one course for the good citizen to pursue; that is to obey the law so long as it is the law. If any law is bad, either because of its nature, or because it is obsolete, or for any other reason, it should be repealed.

It begins to look as though all the house will leave of the Norris constitutional amendment to abolish "lame duck" sessions will let an unhallowed memory. The weakness in such a proposal before a legislative body is that too many of the members thereof vision the time when they may become lame ducks.

When there is general realization on the part of the public that the fellows who are protesting over the presence of the marines in Nicaragua and demanding their recall are encouraging the revolution down there and adding to the hazards our marines are facing, combatting the government policy in that regard will cease to be a popular indoor sport.

The chief ailment of the United States senate at present is that it is laboring under the delusion that its chief function is to serve as a cross between a detective bureau and a trial court rather than as a legislative body.

Even though he accomplishes nothing else, Secretary Kellogg must be getting a lot of quiet fun out of the way he is showing up the League of Nations on the subject of disarmament, which the league promised and expected to accomplish—up to the time it discovered that all the larger civilized powers of the world, with one or two exceptions, were against it.

The treasury department in Washington has refused to purchase $5,000,000 worth of gold sent to this country by the soviet Russian government as neither of the New York banks to which it was shipped would guarantee title to it. In a word, Uncle Sam doesn't propose to be a receiver of stolen goods.

An Albany wire says there will not be any prosecution of Mrs. Florence E. S. Knapp, former secretary of state, in connection with the New York state census graft charges, District Attorney Charles Herrick and Attorney General Ottinger holding the graft charges too thin for prosecution. It's something of a pity that the New York authorities didn't arrive at this conclusion before literally acres of newspaper space had been given her case, blackening her in the eyes of the public.

A former Broadway show girl, now a New York model, has sued the president of a corporation running a chain of cigar stores for $25,000 damages, charging that he hit her at a dinner party given in a hotel in the metropolis and knocked her down a flight of stairs. CHORUS OF OPTIMISTS: "WHO GETS YOUR SUPPORT?"

Smile Brings Dividends.

BY ROYAL S. COPELAND, M. D.

Addison said: "Health and cheerfulness mutually beget each other."

How true this is! If you have good health you are likely to be good natured and happy. If you maintain cheerfulness or mend your health is promoted. There is no doubt that health and cheerfulness do beget each other.

Cheerfulness is largely a matter of habit. You may be inclined to dispute this, but I truly believe it.

You can cultivate a cheerful disposition just as you can cultivate an ugly one. A great many times it is easier to be cranky and disagreeable than it is to practise self-control and at least pretend to be good natured and really try to be.

If you permit yourself to give way to your feelings, to indulge in outbursts of temper, and to say disagreeable things, you are doing yourself a great injury. To give way repeatedly to these tendencies, is likely to result in an irascible, disagreeable, inflammable disposition. The worst of it is, too, that these qualities can become fixed.

I have known many a patient, temperate, kindly person, abounding in goodness and sweetness. With many of these I have taken pains to discuss the matter we are considering today. Lots of them have confessed to the possession in early life of quickness of temper, crankiness, gruffness and other disagreeable qualities.

The exercise of will-power and the determination to turn away from the natural impulse to be disagreeable has brought about a complete reversal of thought and action. In short, it is possible to cultivate a cheerfulness of disposition.

When you give way to temper or to moroseness, it is not long before you have a headache, heartburn and other positive symptoms of physical disability. The very violence of the outbursts reacts upon the nervous system. The heart is set to pounding. The blood is in the head instead of in the stomach where it should be at work digesting the food.

Repeated experiences of this sort are sure to impair the health. On the other hand, to be cheerful, to try to see the beauties of the landscape, to smile over the enthusiasm of your friends, to have a kind word for the bootblack, will react upon your physical nature and promote your general well-being.

I am confident Addison was right. He was expressing a fundamental truth. It is indeed true that health and cheerfulness mutually beget each other.—Copyright, 1928, Newspaper Feature Service, Inc.

An Analysis Suggested.

Editor Star: For the past fifty or more years lime has been deposited inside the Water company's pipes, and it is understood that unless the Water company changed over to soft water, as it now has, these lime deposits would require many miles of pipe replacement, because of the resultant decreased diameter of the pipes. With softened water, the lime should no longer be deposited, but will be taken up by the soft water, pressure will increase and we can use more water.

What we are interested in is whether we will actually get soft water in the East End or any other part of the city even with the softened water turned into the pipes at the water company's plant? Will it take another fifty years to absorb the lime deposited in the pipes? Will the users of water really get soft water? Personally, I can not understand how they will.

My suggestion to council would be to have an analysis made of the water drawn from faucets in different parts of Marion by the state and when it proves of proper analysis to let the Water company go ahead and start charging us for rejuvenating its water system. I just wonder whether it pays residents of [illegible] anything on its books after allowing for depreciation year after year as it no doubt should have. At least we are performing a very useful public service by paying the company to get its plant in shape again, but that $18.00 a year will be quite a water bill, just the same.

[My Goodrich is certainly in error in regard to the use of the lime in the water system.—Edit. or Star.]

MEMORIAL TO MRS. O'LEARY'S COW.

Chicago will not permit Mrs. O'Leary's cow, which started the great fire of 1871, to fade as a tradition, but will erect a memorial to that nervous bovine whose kick upset a lantern and started a blaze that raged for twenty-six hours, was finally subdued by rainfall, devastated over 2,000 acres, destroyed property valued at $187,000,000 and caused the death of about 300 persons. The barn itself was, of course, destroyed, and the O'Leary homestead was wrecked, but the site was marked and has long been noted as the place where the great disaster originated. Now the city has purchased the property for $36,000—which is nearly $30,000 more than it is admitted to be worth—and it is planned to erect on it a monumental fire station.

This action has been taken, not to keep alive the memory of a catastrophe, but to celebrate the spirit with which the people of Chicago recovered from the blow. The ruins were yet warm when reconstruction was started in October, 1871, and within two years the burned area was again covered with buildings, and of a more solid type than before the fire. The conflagration, though costly, was recognized as actually a blessing, and but for the loss of life was finally welcomed. The Chicago that succeeded to the city that was ravaged by the flames was better in all respects than its predecessor. Only twenty-two years after it was the scene of a great exposition. Immense throngs of people were entertained at the World's fair which commemorated the tercentenary of the discovery of America. During the six months of the duration of this great show more than 27,500,000 persons passed through the gates. Chicago accommodated the visitors in a manner that would have been impossible but for the disaster and the recuperation.

The motto of Chicago is "I will." It was applied practically and to good effect in the struggle of fifty-seven years ago. It has been applied effectively on other occasions. There is now an opportunity for it to manifest determination. The fire of 1871 purged the city of noisome conditions. There are today even worse conditions within the city limits which can not be cured by conflagration, but by an uprising of the spirit of good citizenship. Let Chicago's "I will!" be now applied to the correction of the evils from which that community is now suffering, and it may with warrant erect another memorial, more elaborate than that which is about to rise as a token of respect to Mrs. O'Leary's cow.—Washington Star.

PROPOSES DOLLAR FOR FRANCE.

Charles Gide, French economist, suggests that France adopt the dollar as her standard of value instead of a new devaluated franc when she stabilizes her currency and reestablishes the gold standard. This, he believes, would enhance the French financial position and eliminate much of the confusion in industry and commerce certain to follow adoption of a four-cent franc, the present probability, or of any new monetary unit.

Recent years of currency stabilization have added a number of new monetary units. There is the schilling in Austria, the pengo in Hungary, the tchervonitz in Russia, the zloty in Poland; and in Brazil the well-established milreis has given way to the cruzeiro.

It goes without saying that many years will be required to establish these new monetary units throughout the world. And it is not unlikely, as Gide suggests, that the trade of some of these countries will be held back on account of lack of familiarity with their monetary systems.

Reginald McKenna, head of one of England's largest banks, recently declared that the American dollar, rather than gold, was becoming the standard of value throughout the world through the great concentration of the world's gold resources in this country. If that is the case Gide's suggestion to establish the dollar in France might advantageously be accepted not only in France but in other countries as well. But it is hard to imagine England giving up the pound for the dollar, even though her bankers recognize its growing prestige.—Cleveland Plain Dealer.

It is based upon knowledge of the unity and [illegible] ...of the universe.

Membership in the American Astronomical association costs one a dollar and it is an honorable distinction, a mark of mental awareness, something to be regarded with self-satisfaction and to be mentioned among the noteworthy things in an obituary sketch. By being a member of such an association one throws his influence in favor of what Emerson called "the things of the intellect" and helps to promote the higher aspirations of humanity. He need do nothing but look and listen, silently drinking in the influences that fall from heaven's cope, and by his presence and his personality alone swelling the force of the movement of which he is a part.

But he is still better, of course, if he takes some share in the activities of his fellow members, watching the skies, studying the stars, and thinking and pondering on the infinite subjects presented to his mind, until his life becomes for his contemporaries a signboard and a guide to higher levels of existence. It is well to remember that William Herschel was an amateur astronomer, though he led all the professionals, and, indeed, furnished reasons for their existence. The whole history of astronomy is illuminated with the work of amateurs. Even in these times, when professionals abound, many notable discoveries and advances are made by amateurs. There is something new always appearing in the heavens, and the old never becomes obsolete. —Copyright, 1928, International Feature Service, Inc.

The charge is made that two-thirds of the taxable property of Illinois is not put on the books. Real estate does not escape, but personal property does. It was estimated the other day that in the city of Chicago $40,000,000 in taxes that ought to be collected was not found.

Tax-dodging is the great American sport. To blame the politicians, largely with state legislatures, who lack the intelligence or the initiative to approach the job in a constructive spirit and make new tax laws that will be sensible and enforceable.

"I have seldom had occasion to regret my silences."

So wrote Joseph Jefferson, the great actor, in his autobiography. Every man and woman has the opportunity of making one permanent contribution to literature. It is his last will and testament. If the will is properly drawn it can not be changed after death. It is irrevocable. One ought to be careful about what he puts in his will. Some men take a final slap at a friend or foe or a parting fling at religion or faith.

Few of us ever get to be important enough to write autobiographies. Many will write wills. They are lasting documents. They can be read years later. Let us remember the words of Jefferson: "I have seldom had occasion to regret my silences."

Vandenberg, wise Michigan editor, says the American legion "knows enough of the ultimate horror of war to be desperately in love with peace." And he says further: "The legion also knows enough of war's psychology and phases to be uncompromisingly sure that there is more peace in a national backbone than there is in a national wishbone."

At the hands of wise leadership the American legion can become one of the great forces in the whole world for the maintenance of peace among the nations. Knowing and appreciating peace as only those who have seen war can, the legion can approach the whole question as men who want to translate ideals into practice.

Little Green Capsuls Stop Rheumatic Agony

Bradley Drug Store, Henney & Cooper Offer 5-Day Trial On Money Back Basis

There's nothing in the world that brings such quick and complete relief from the pain and misery that makes life almost unbearable as those tiny green capsules known from coast to coast as Allenrhu Number 2.

More than one man and woman whose horrible rheumatism has been carrying down to helplessness—suffering the torture of the damned can testify to this.

All you have to do is to take one tiny capsule each hour for the first ten hours the next day one every two hours for 11 hours then take as directed.

In spite, however, of all the claims made for Allenrhu Number 2—in spite of the remarkable results obtained in others, these little green capsules must prove themselves to your particular case. For that reason Bradley Drug Store, Henney & Cooper and good druggists everywhere have been authorized to make this guarantee: If after taking one full bottle Allenrhu Number 2 as directed you are not satisfied—go back and get your money.—Adv.

EAGLES ESTABLISH AERIE IN CEDAR POINT TREES

Sandusky, March 8.—In the tall trees in Cedar Point near here a half a dozen eagles have established an aerie, Vera Tisch of Sandusky reported after his return last week from that section of Ohio.

Tisch described an exciting fight between one of the eagles and a gull. Although the eagle refused to give ground, he said, the gull won the decision by a wide margin.

NAME COMMITTEE TO WORK ON MEMORIAL

London, March 8.—R. R. Howard, president of the Buckeye Press and Ohio News paper association, has announced the personnel of a committee to work with C. B. Callaghan, Bellevue; C. R. White, Millersburg; H. W. Brown, Cincinnati, and Prof. O. C. Hooper, Columbus.

CRIPPLE SLAIN BY ASYLUM INMATE

Lima, March 8.—The body of Edmond S. Riegel, 24, of Niles, was held for removal to Niles, today while William H. Mohler, 51, convicted wife slayer, of Bluffton was held in solitary confinement at the State Hospital for the Criminally Insane, following Riegel's death here late yesterday.

Riegel, a cripple, according to attaches of the hospital, died soon after being struck over the head with a machinist's hammer, wielded by Mohler. Dr. W. H. Vorhau, superintendent of the institution, reported that Mohler had no motive for the killing, except an irresistible desire to kill.

The tragedy occurred in the basement of the institution, near the dining room where Riegel and Mohler had been employed at meal times. According to Mohler's story, he picked a lock in a room where plumbers had been installing wash basins, and there obtained the hammer.

Then, according to Dr. Vorhau, he mingled with other patients, and enticed Riegel to the basement by promising to give him a watch chain. In the basement, he turned upon Riegel and slew him, Dr. Vorhau said.

YALE ART STUDENT AS EDITOR BIG SURPRISE

New Haven, Conn.—Somebody's always upsetting precedent at Yale these days and creating excitement among the undergraduates. The latest thing to startle and amaze the student body is the election of an Art School student to edit Yale Record, famous light magazine issued supposedly by undergraduates. "A bad precedent," many students have declared, writing fervent letters to the news in protest.

Now the students expect that ancient "rule," a political one in which many men who afterward became famous authors first saw their things in print, may be played in the hands of a grad-uate school student and so remove another institution from undergraduate hands.

How One Thin Woman Gained 11 Pounds

Read This Letter

This is from Mrs. W. E. Looney. "I just want to tell you that McCoy's Tablets are the finest things I have ever tried. I have always been thin and never found anything to do me so much good. I was disappointed in the beginning.

I weighed 101 when I began—now I weigh 115½. I praise them. I can't be without them. My limbs are picking up fine. I am singing their praises to everyone I see. I didn't have any faith in them to start.

Signed (Mrs. W. E. Looney)
Texas.

Old Folks Say Doctor Caldwell was Right

Dr. W. B. Caldwell M.D. AT AGE 83

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practice, known to druggists and the public since 1892, as Dr. Caldwell's Syrup Pepsin.

Then, the treatment of constipation, biliousness, headaches, mental depression, indigestion, sour stomach and other indispositions that result from constipation was entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, which is a combination of senna and other mild laxative herbs, with pepsin.

The simpler the remedy for constipation, the safer for the child and for you, and the better for the general health of all. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs?

A bottle of Dr. Caldwell's Syrup Pepsin will last a family several months and all can use it. It is good for the baby because pleasant to the taste, gentle in action and free from narcotics. In the proper dose given in the directions, it is equally effective at all ages. Elderly people will find it especially ideal. All drug stores have the generous bottles.

We would be glad to have you prove at our expense how much Dr. Caldwell's Syrup Pepsin can mean to you and yours. Just write "Syrup Pepsin," Monticello, Illinois, and we will send you prepaid a FREE SAMPLE BOTTLE. - Adv.

Meditations OF A Married Woman

BY HELEN ROWLAND

MY Son, there is a time to marry—and a time to beware of marriage.

• • •

A time to love—and a time to watch the STEP!

• • •

Verily, NO man need dwell in fear of women, when all his thoughts are upon his work, all his dreams of his vocations, and all is heart wrapped up in BUSINESS. For a man that laboreth feverishly from dawn until night, hath not a thought nor an emotion left for any woman!

• • •

But when the moment of idleness cometh; when he seeketh rest and diversion, when time hangeth heavily upon his hands and he is filled with ennui, then let him take heed. For his foot is upon the quicksands.

• • •

When he suffereth from disappointment and his heart is bruised; when he is lonely and filled with bitterness of spirit, let him close his eyes and pray for strength. For he shall NEED it!

• • •

When he hath quarreled with the woman of the moment; when his vanity hath received a blow; when he is filled with disillusion and sigheth to "forget it all," let him gird up his loins against temptation. For then is he as a taxicab that steereth straight for the telegraph pole—and no amount of shouting can stop him!

• • •

When he is ill and weak and without defense; when he yearneth for nursing and coddling; when he hath no fight left IN him, then let him beware. For his danger is mighty!

• • •

Yea, these are the Marrying Moods! And neither heaven nor philosophy can HELP him against any woman!

• • •

He is as a sheep prepared for the sheering, a lamb decked for the sacrifice, a jay walker that seeth not the traffic signals!

• • •

But when he is content and happy and full of well-being; when his digestion worketh gloriously; when his friends are plentiful, and his pockets are overflowing, then need no man fear that he is in danger of matrimony.

• • •

For he requireth nobody to help him pity himself!

• • •

When he dwelleth in comfort and luxury in a bachelor flat; when he hath a mother to coddle him, and sisters to adore him, and handmaidens to wait upon him, then is he immune.

• • •

Wen his heart is lighter than a sponge cake, and his affections divided among many women, as samples at a food show, then need he have no fear that he shall fall in love with any ONE woman!

• • •

For, verily, verily, he needeth nobody to help him LOVE himself!

• • •

Violinist to Use Real 'Strad' in Concert Here

[illegible] Catherine Wade-Smith, [illegible] American [illegible] violinist, [illegible] a concert [illegible] Memorial [illegible] Tuesday evening, March 13, is the possessor of one of the few genuine Stradivarius violins in this country and [illegible] concert appearance [illegible] in New York City, where she appeared [illegible] soloist with the Philharmonic Orchestra under the direction of the great Dutch conductor, Willem Mengelberg.

"There seems to be some magic about the name 'Stradivarius,'" said Miss Wade-Smith. "Everywhere I go throughout the country, people ask about my instrument. Probably no name in the history of music has impressed itself on the minds of the general public more definitely than that of the famous violin-maker of the eighteenth century. 'Stradivarius' seems to stand with 'Shakespeare,' 'Dante' and 'Homer' as a kind of symbol of perfection in achievement.

[illegible] sad aspect of the [illegible] is the spurious [illegible] violins and imposters. [illegible] have been asked [illegible] which the owners [illegible] be found to be valuable Stradivarius instruments. In many cases [illegible] have treasured them for years expecting some day to realize a fortune on them. Of course genuine 'Strads' are very valuable and if any of these owners proved to be genuine, the owners would indeed be fortunate. Some times the price of a genuine 'Strad' runs as high as $50,000. All the authentic 'Strads' in the world are listed and catalogued and well known to all violin authorities. The discovery of a hitherto unknown and authentic 'Strad' would be nothing less of a sensation, than the discovery of a new symphony by Beethoven.

Many of the instruments I am asked to examine bear the name 'Stradivarius' with various dates and other marks, but most of them are obviously false. Anyone who knows anything at all about violins could detect at first glance that they are very poor imitations. I always try to break the sad news as gently as possible to the owners, who in many cases have been treasuring the instrument for years, but they usually seems to resent my tactful candor. Possibly they think it is 'professional jealousy.' Of course I am very proud and happy to have a real Stradivarius. The history of my instrument has been traced from the beginning and there can be no doubt of its authenticity. It was at one time in the collection of Franz Reis, the composer. It bears the date 1755 and was made by Antonio Stradivarius, the elder of the two artists of that name.'

ANNA GORDON W. C. T. U. HOLDS PROGRAM MEETING

Mrs. Ed. Ellington conducted devotionals and Mrs. Grant Haldeman led in prayer at the meeting of members of Anna Gordon W. C. T. U. yesterday afternoon at the home of Mrs. William Bevis, 506 S. Prospect-st. Devotionals were based on the fifth chapter of Acts. "Blessed Be the Tie That Binds" was sung in opening the program hour. Papers were given by Mrs. Kellogg, Mrs. J. H. Probst, Mrs. Jerry Slack, Mrs. Ed Stanley, Mrs. Bevis and Mrs. Ellington. A discussion on "Sabbath Observance and Sunday Movies" was held after which it was unanimously voted to favor abolition of Sunday moving picture shows. The meeting closed with the W. C. T. U. benediction, the next regular session to be held at the home of Mrs. Anna Oglesbee, 547 S. Main-st, April 4. Refreshments were served.

SUPPER IS SUCCESS

St. Rita Guild Realizes Nearly $100 Report Shows

Nearly $100 was cleared from a church supper given recently by members of St. Rita Guild, St. Paul's Episcopal Church, it was announced by Miss Louise Burgin, treasurer, at the regular monthly meeting of members of the guild last night at the home of Miss Rachel Gundlach, N. Vine-st. During the business session, in charge of Mrs. Fred Haberman, Jr., president, it was decided to donate the sum of $5 to aid a needy family, and to give $50 towards the church choir.

A paper on the study book, "Creative Forces in Japan," chapter one, was given by Miss Frances Jennings and a current event of church interest by Miss Una Ackley. A devotional service was conducted by the hostess. Ten members responded to roll call with "Interesting Events in Church News." A delightful luncheon was served by Miss Gundlach and the assistant hostesses, Misses Lela Snyder and Emily and Louise Burgin. The next regular meeting will be held Wednesday, April 4, at the home of Miss Frances Irvin, 545 Delaware-av.

ENROLL MEMBERS

Y. P. B. Plans To Attend Caledonia Pep Meeting

Miss Dorothy Ellery, Eddie Razzo and James Bindley Rice were enrolled as members of the Marion City Young People's Branch at a meeting of that organization last night at the Y. M. C. A. Twenty-seven members were present.

Says: It Helped My Kidneys

More Relief from Dr. Carey's Marshroot Prescription 777 Than Anything Else.

If your back aches, you probably have kidney trouble which may grow upon you until it becomes a serious matter.

Thousands die every day who ought not to die and kidneys soaked with poisons are often responsible.

Thos E. Gardiner, Sr., 1750 T. St. N. W. Washington, D. C., writes:

"I took three bottles of Dr. Carey's Marshroot Prescription 777 and I got more relief from it than anything I ever took."

If you ever suspect you have kidney trouble give your kidneys a good cleaning once in a while with the best medicine you can get.

Chocolate coated—easy to take

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by Ligh medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist.—Adv.

Stomach Bad 35 Yrs. -- Feels Fine Now

"I suffered with indigestion and stomach gas for 35 years. Since the first dose of Adlerika, I have not been troubled a minute."—D. Carlisle.

The simple mixture of buckthorn bark, glycerine, saline, etc., (known as Adlerika), has a most surprising DOUBLE action. First, it acts on BOTH upper and lower bowel (most medicines act on lower bowel only) and removes foul matter that often poisoned the system for months. Second, Adlerika clears all GAS and sourness from stomach and bowels, bringing INSTANT relief from stomach trouble. And in addition, Adlerika removes metabolic poisons which cause neuritis, rheumatism, etc.

Dr. H. L. Shoub, New York, writes: "Adlerika, in addition to its intestinal cleansing, checks the growth of intestinal bacteria and bacilli."

Dr. J. Weaver: "In my 50 years' practice, I have found nothing to excel Adlerika."

J. E. Puckett: "After using Adlerika, I feel better than for 20 years. Awful impurities were eliminated."

It will astonish you the great amounts of poisonous matter Adlerika brings out—matter you would never believe was in your system. In chronic constipation, gas bloating, sour stomach and sick headache, just ONE spoonful Adlerika brings wonderful relief. At leading druggists. Sold in Marion by Heisey & Cooper and other druggists. —Adv.

Thousands Say Best for Piles

Don't allow yourself to become discouraged because the treatments you have been taking have failed to rid you of piles.

If you haven't tried Peterson's Ointment, you have probably missed the one preparation that you should have used first because this marvelous healing preparation seldom fails.

Read this letter from a well-known Michigan Contractor:

"Received the Box of Peterson's Ointment, used it and had a real night's sleep, the first in a long time. I have been so relieved that I swear by the Ointment and recommend it to my friends. Anyone suffering from itching piles sure get their money's worth. If my reference is good for anything, I will be pleased to have you use my name."—Mr. R. B. Hindall, Whitmore Lake, Mich.

Many a man has rid himself of Piles with one 35 cent box of Peterson's Ointment after expensive treatments had failed.—Adv.

Is it plain to the ... Sahib why I acted thus?"

Bob Kingsley made an affirmative gesture with a hand that was tightly clenched.

"And then?" he prompted tensely.

"Then, Sahib, I went out of the house to search for Kingsley Sahib, but I must have walked as in a daze, for I remember nothing of where I went until I was on the beach by the water, and was in the hands of the Chinamen who were even then going off to the junk in their boat. Sahib, they made me a prisoner, and took me way for, and I said I was doing it to fool my aut. I knew my aut wouldn't say anything till about the time school was called, then she would say to my mother that I was still upstairs, and would try to get me a licking. I said she would be surprized when she found I wasn't up there. They all thought I was pretty slick. I was slicker than they thought I was.

We went around past Younisses to call for her, and she was watching for us and came out with her schoolbooks and her chin in the air. Younisa and Maggie and Feeble started off ahead of the bunch, and I could see from the way that Younisa wiggled as she walked that she knowed I was looking at her and wanted to show me what she thought of me for not doing like we had made up. I don't care much. *Women are all alike and they ain't so very brite.*

My aut was still smelling of anarchy when I got home, and was limping around from the fall Annabelle Lee gave her. She asted me how I had got out of the upstairs to go to school, and I said, "Why, didn't you see me come down and walk out right under your *nose?*" That wasn't lying. I only *asted* a question.

My father hasn't paid me my dollar yet and I've still got my two bits. I went to bed early.

A Sequel to "Revelations of a Wife"

"I'M afraid I'm getting old," I said, carefully following Lillian's lead. "You youngsters were certainly too swift for me," I added turning to Mary, Marion and Junior, huddled together near Mother Graham. "I followed you for a little while, then I lost you and I've been hunting you ever since. Where did you go?"

"Oh, we ran down the beach and then we climbed a dune and ran up there," Marion answered promptly. "And we beat Mary both times. We beat her back to the camp fire, too."

"And a fine time I had hunting you, too," Mary put in. "Auntie Madge, I wish I'd known you were out there, too. It was positively spooky, all by myself."

From under my eyelashes I shot a glance at Philip Veritzen, and was much relieved to see that to all appearances he was paying but little attention to the chatter about the race on the sand dunes. He was listening to it, apparently, but he was looking at me, and when Mary stopped talking, he addressed me directly.

"When do these festivities of yours close?" he asked.

There was something irritating to me in both words and intonation, something subtly suggesting ennui upon the part of my employer. It was a question hard to answer when I considered that Mr. Veritzen was himself the host of the affair. Thankful indeed was I to Lillian who forestalled my hesitant answer by an impudent challenging sally.

"Where do you get that stuff, Phil?" she demanded. "These are not Madge's festivities any more than they are Junior's. Your memory is failing you, old timer. Better take a course before you get more forgetful with advancing age. But I'll refresh your memory and remind you that when I complained of the deadly dullness down here you offered to throw me a party, asked for suggestions, enthusiastically accepted Madge's proposal of a beach picnic and a pirate steak and turned all the details over to Katie. You are the host, so if you want to ask any more questions, say 'my' or 'our,' not 'your.'"

The great theatrical producer is a trained actor, and his laugh in answer to Lillian's tirade was apparently hearty and spontaneous. But I surmised that he was anything but pleased at her reference to his age.

"I am properly blue-pencilled," he said. "When, then, do 'our' festivities close?"

He looked at me, but again Lillian saved me the embarrassment of an answer.

"When the moon is setting, half the party asleep and the last canine expiating his sins at the end of a rope," she told him. "And of course, as host, you would not think of deserting us beforehand. Come, old scout, be game and face the music—literally, for we're going to tune up right away. Start 'em up, Noel. Take Junior's favorites first, for—reasons."

"Huh!" Junior exclaimed. "I know what the 'reasons' are, Aunt Lillian. You mean I'll be asleep before you finish singing. But I'm going to fool everybody tonight. I'm going to stay awake till we go home."

"'At-a-boy!'" Lillian commended, and Junior hauntingly gave Noel the name of the song he wished us all to sing first.

But the keen edge of pleasure with

Jubilee's Pardner

A Story of Humorous Boyhood Adventure

By JUDD MORTIMER LEWIS

IT was cool and sunshiny today. When I let Jubilee down out of the window my shirt almost blowed off of me, but it wasn't hardly cold enough for goose pimples.

When I had got the dummed brutes all milked and went in to strain my face Maggie and Feeble were there in the house and the bunch was in the barn, and I didn't know what I was going to do about getting away. When I had fed my face and grabbed off a couple of pancakes for Jubilee, I got up and looked around and I was going to make out like my hat was in my mother's bedroom and go in there and climb out of her window and skin out. But when I looked around Feeble was holding my hat for me, so I had to take it and they knew I was going and got up off of the couch to go with me. So I told them there was something I wanted to get upstairs and I would be right down. So I went up and climb out of the window onto Farrel's house, when something hit me in the neck and when I could get one hand loose to feel I got enough of it to see that it was a snowball, about half dirt, that some kid had gathered up from some shaded place. Then when I was climbing down there was Feeble and Maggie and the bunch, and they all wanted to know what I was coming down that

QUICK RELIEF FROM CONSTIPATION

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 29 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Olive Tablets do not contain calomel, just a healing, soothing vegetable laxative mixed with olive oil.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver— constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night to keep right. Try them. 15c, 30c, 60c. —Adv.

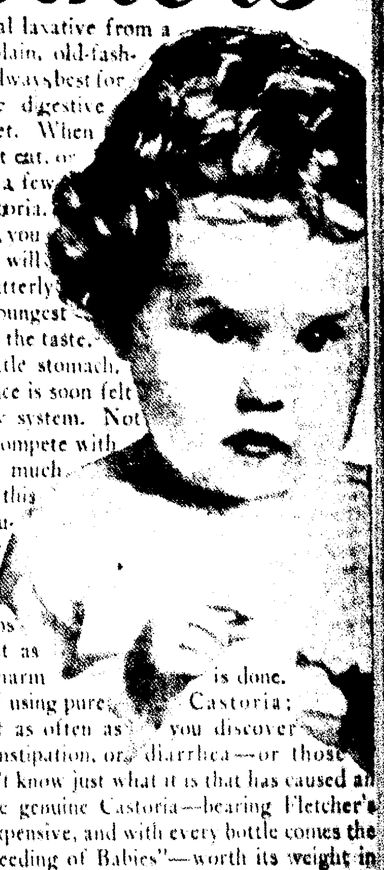
Mothers:



Next to the natural laxative from a mother's breast, a plain, old-fashioned preparation is always best for keeping baby's little digestive tract clean and sweet. When your little one doesn't eat, or can't sleep, give him a few drops of plain Castoria. It is purely vegetable, you know. Any doctor will tell you that it is utterly harmless to the youngest infant. It is sweet to the taste, and sweet in the little stomach. Yet its gentle influence is soon felt all through the tiny system. Not even castor oil can compete with Castoria and how much better it is to use this milder means of regulating a baby! Never give baby paregoric or similar opiates, because, a few drops of Castoria are just as soothing, and no harm is done. That's the beauty of using pure Castoria; you can give it just as often as you discover any sign of colic, constipation, or diarrhea—or those times when you don't know just what it is that has caused an upset. Only get the genuine Castoria—bearing Fletcher's signature. It isn't expensive, and with every bottle comes the book, "Care and Feeding of Babies"—worth its weight in gold to every mother or prospective mother.

Women are Learning *the Right Way*

Pimples on the face and other parts of the body are warnings from within. Sometimes they foretell eczema, boils and other skin disorders that burn like flames of fire.

IF you are unfortunate in having skin blemishes, pimples, boils, eczema, you owe it to yourself and friends to remove the cause. Nature will then provide the complexion which is so much desired.

Thousands have been enabled to free themselves of unsightly blemishes and painful skin annoyances by taking a course of S.S.S.

You owe it to yourself to try S.S.S. It helps Nature build up the corpuscles. It improves the character by which the blood is nourished.

Rich blood cells are Nature's body building and sustaining energy.

Without plenty of rich, red blood there can be no strong, vigorous, powerful men, or beautiful, healthy women.

You know a clear skin comes from within. Correct the cause—through the blood—and pimples, boils, eczema and that sallow complexion will disappear.

S.S.S. is Nature's own tonic for restoring the appetite—building strength—and clearing the body of so-called skin troubles.

"I was troubled with pimples and blackheads. I took a course of S.S.S. It cleared my face and back. I think S.S.S. is wonderful. I have told many friends about S.S.S., and they are getting as much benefit as I did." Miss Ruth Gahm, 1134 Elden Ave., Los Angeles, Calif.

Hardin County Grand Jury Indicts Seven in Special Session

PEN SENTENCES GIVEN THREE

Mr. and Mrs. John Fosnaugh, Fred Ames Sentenced by Court

Upper Sandusky, March 8—Penitentiary and reformatory sentences were meted out to three yesterday by Judge Carter in the Wyandot County Common Pleas Court.

Jos Fosnaugh was sentenced to from 10 to 30 years in the Ohio Penitentiary for robbing the home of Mr. and Mrs. J. H. Nitraner, south of here, on the night of Jan. 26. Fred Ames got from eight to 30 years in the penitentiary on the same charge and Mrs. Tabb Fosnaugh, wife of John Fosnaugh, got from five to 30 years in the Marysville Reformatory for Women (as considered in the crime.

Sentences were passed by Judge Carter at 2:30 o'clock. Mr. Fosnaugh was found guilty by a jury late Tuesday. Fosnaugh and Ames previously pleaded guilty to the charges.

Fosnaugh and Ames confessed to entering the Nitrauer home on the night of Jan. 26 and stealing a sum of money and an automobile after slugging Mrs. Nitrauer, knocking her unconscious, and binding Mr. Nitrauer.

The cases of four Marion youths, caught later in the night of Jan. 26 in the Nitrauer sedan after they are alleged to have burglarized a roadside fruit stand near Delaware, are yet to be disposed of.

BLOCK RECOGNITION OF RUSSIA BY U. S.

Subtle Effort Is Checkmated; Mellon Refuses to Purchase $5,000,000 in Gold

Washington, March [illegible] Secretary of the Treasury Mellon [illegible] purchase $5,000,000 in gold on behalf of the government. While the Treasury Department [illegible] the gold could not be acquired because it was not presented by owners and that the Soviet could establish no title, it was learned that even more important things were back of the contraction of the loan established in 1926.

The gold was imported for the Soviet State Bank and held in the vaults of the Chase National Bank and the Equitable Trust Co. of New York pending negotiations. It probably will be shipped back to England, coming into channels which will be credited into dollar credit.

If this government had purchased the Russian gold the Soviet immediately would have disclosed to the world that it was doing business directly with the U. S. Government, officials explained.

Such a statement, backed up with America's purchase of the gold would have been a tremendous asset to the Soviet in other marts.

75 ATTEND "ALL CHURCH" NIGHT AT KIRKPATRICK

Kirkpatrick, March 8—About 75 were present at "All Church" night which was held in the basement of the M. E. Church on Tuesday night. Various games and a spelling contest were held. Pie and coffee were served by the committee. Several guests were present from Monnette Chapel.

WESLEY MINISTER TALKS ON "GOLDEN AGE" HERE

"The Golden Age" was the subject of the second of a series of lectures-sermons given by Rev. G. A. Whitlock, pastor, last night at Wesley M. E. Church. Attendance was unusually large. Reverend Whitlock described the life of Paul up to the "golden age" or the coming of Christ. Next Wednesday night his lecture will be on "The City of the Heathen Queen."

ROLLIN PEASE IS GUEST ARTIST IN SONG RECITAL

Bucyrus, March 8—Rollin Pease, guest artist bass-baritone of Chicago, delightfully presented six song groups at the First Methodist Episcopal Church at 8:15 o'clock last night.

The unusual program was sponsored by the Bucyrus Music Club and was the second number on this season's program.

Mr. Pease won many admirers in Bucyrus when he appeared here three years ago singing the title part of "The Elijah."

RADNOR HIGH SCHOOL JUNIORS PRESENT PLAY

Radnor, March 8—The play entitled, "The Whole Town's Talking", was given at the Township Hall by the juniors of Radnor High School. Receipts which amounted to $65 will go towards the junior and senior banquet in the spring.

Those who took part were: Miss Elizabeth Ash of Ohio Wesleyan University, director; Mary Janet Davis and David Peters, in the main parts, followed by Dorothy Stiffler, Paul Zeigler, James Gallart, Lloyd Jones, James Tinnus, Elizabeth Dill, Franklin Hummel, Sarah Margaret Jones, Ewen Thompson, and Myrtle Morris.

Between acts music was furnished by a trio composed of Mildred Tatham, violin; Batrice Reed, trombone, and Evelyn Thomas, piano.

RADNOR BAPTIST MISSION CIRCLE HOLDS MEETING

Radnor, March 8—The Radnor Baptist Missionary Circle met at the church with a large attendance. The devotional leader was Mrs. E. D. Griffith. A report of the year's work of secretary and treasurer was given by Mrs. Thomas and Mrs. E. H. Jones. Special music was furnished by Mrs. Harold Snyder of Delaware, who sang a solo. After the business meeting refreshments were served by Mrs. Walter Evans, Mrs. William Griffith, Mrs. E. D. Griffith, Mrs. Walter Peury, and Mrs. Will Peury.

Officers were elected to serve for the coming year as follows: president, Mrs. Alias Jones; vice president, Mrs. Harry Gallant; secretary, Mrs. John Robinson; treasurer, Mrs. Edwin Reed; assistant secretary, Mrs. William Griffith; literary superintendent, Mrs. Ed O. Jones; chorister, Tim Sullivan.

TORCH BEARERS MEET

Carey, March 8—The Torch Bearers of the Lutheran Church met Monday night with Miss Laura Keller with 11 in attendance. Miss Rosa Drake read two stories from the book, "Torch Bearers in China." Several songs were sung and refreshments were served. The next meeting will be held April 2 with Miss Maurine Moyer.

RADNOR GRANGE MEETS

Radnor, March 8—The Radnor Grange met at the Grange Hall Tuesday night, with a large crowd in attendance. A well prepared program was carried out during which Mrs. Hosea Jones, Mr. and Mrs. C. J. Robinson and Miss Elizabeth Thomas, a teacher of Radnor school, were given the first and second degrees. Delicious refreshments were served.

Children, nowadays, are schooled enough up to twelve and fifteen, have many duties; and they see nearly everybody pursuing pleasure.

Appreciation of Courtesy Shown Tomb Honor Guard Expressed by Col. Waldron

Kiwanis Club Has Tenth Infantry Officers as Its Guests at Meeting Today. Magee, Felch and Sherfey Are Among Those Present at Luncheon

[illegible] appreciation of the courtesy shown the members of the Tomb guard during their stay in the nation's capital was expressed by Col. W. H. Waldron, commander of the Tenth Infantry, Fort Hayes, Columbus, as a guest speaker at the meeting of the Kiwanis Club at the Hotel Harding today. Appreciations were extended by Maj. Percy B. Magee, commanding at Fort Hayes, Maj. Ernest E. Febiger and Lieut. Walter E. Locke, who have been in charge of the [illegible] here.

"I want to extend to the citizens of Marion and particularly to the members of this club, our most sincere appreciation of the courtesies shown the platoon of the Tenth Regiment who have been stationed here since the death of the late President Harding," Colonel Waldron said. "We have always used the most particular care in selecting men for this detachment and we have tried to pick only such men as would reflect credit upon the regiment. And I feel that our efforts have been appreciated by the citizens who have shown the men the greatest consideration.

Sherfey Speaks

"As the time for the departure of the men draws near, Lieutenant Sherfey told members of the club, "I want to take this opportunity to express my thanks to the club and to the citizens of Marion for the courtesies shown our men during their stay here. This club, the lieutenant continued, was the first organization in the city to extend the courtesy of being hosts to the detachment when they were invited to be the guests of the club at the address made by Jack Harding following his flight around the world."

Colonel Waldron, who gave a resume of the peace time work of the army, said his regiment was so equipped that on two hours notice, he could furnish meals for 10,000 persons and could in a very short time provide temporary tent homes for that many.

He also sounded a warning against the invasion of the bolshevik who, he said, were making inroads into the schools, colleges and even into clubs and other social organizations. Working with a fund of $1,800,000 provided by Charles Garland, an organization known as the American Civil Liberty Union, the speaker said, is employing talented speakers to seek the opportunity to spread their propaganda among the people.

SALACIOUS BOOKS IN VERY GREAT DEMAND

At Least According to Custom Literary "Snoopers;" Foreign Countries Distributors

Washington, March 8—Either there is a remarkable demand for salacious literature in the United States or foreign publishers are seeking to cultivate such a taste.

Customs officials said today that there is a continued stream of questionable pictures and books pouring into the United States both from the Orient and Europe.

Literary "snoopers" are on duty in offices of the customs collectors who, it's reported, can detect a salacious story without opening the books. If collectors of customs are in doubt as to whether literature is likely to contaminate the morals of the American public they submit the works in question to the treasury department for an expert viewpoint.

LENTEN SERVICES

Galion Churches Have Special Mid-Week Programs

Galion, March 8—Several churches of the city held interesting mid-week Lenten services last night. Rev. Philip Auer user "Justification by Faith" as the subject for his address to members of the Peace Lutheran Congregation, and at the First Lutheran Church Rev. O. C. Kramer gave an unusual sermon on the much discussed subject, "Is There a Hereafter." At Grace Episcopal Church Rev. Paul Due was in charge of evening prayer service and a special Lenten address featured.

A cottage prayer meeting of members of the Market Street Methodist Church was held at the home of Mr. and Mrs. Albert Bauer, Southest, with Rev. Joseph Lamp in charge and at the First Reformed Church Rev. G. F. Zinn conducted an interesting round table discussion following the lesson study. A special revival was held at the Free Methodist Church by Evangelist Foulk. Additional meetings were held at the First Baptist, First Methodist and United Brethren churches with suitable topics for the Lenten season.

WHIPPING CASE IS THROWN OUT

Alleged Check Forger Nabbed by Butcher Is Among Those Indicted

Kenton, March 8—Five days after his arrest here for passing alleged worthless checks amounting to more than $80 on a dozen Kenton merchants, J. H. Miller, 55, residence unknown, was indicted on a charge of forgery by the Hardin County Grand Jury sitting in special session here Wednesday.

Miller was arrested when Lester Howe, meat market owner, halted a passenger bus on which the man was a passenger bus on which the man was enroute to Marion and held him prisoner at the point of a revolver until the arrival of officers. Checks for the most part were forged by Miller on the Swift and Co. cream station in Limaville, it was said.

During the special session of the jury eight cases were investigated and more than 25 witnesses examined under the direction of Lopcks B. Brown, county prosecutor. Out of the eight cases, seven true bills, three of them secret, were returned. One case, that of Miss Hel[illegible] Sloat, rural school teacher, who was charged with having whipped one of her pupils, was thrown out.

Arraignment of the prisoners will be completed Friday morning at 9:30 o'clock before Judge Hamilton E. Hogsett in the court of common pleas. Those indicted were:

Advisable Funeral Service

THERE is more than merely an established routine for the mortician to perform on the occasion of a funeral.

Various requirements differently arise; to which the efficient mortician attends without being asked. The comfort of the family as well as the care of the one departed most always presents many special needs requiring experienced consideration.

And the kind of funeral service which the foregoing suggests is what we offer, and advise.

COMMISSION ALLOWS CLAIMS OF FARMERS

Figures Comparatively Lower Than Last Year; Amount to $638 for Two Months

Claims filed by farmers of Marion County for sheep killed or injured in attacks by dogs during the first two months of 1928 were allowed by the Board of County Commissioners yesterday, the awards being the first made under the new state dog license law.

The list, which includes 12 claims amounting to $638.65 for death or injury of 59 sheep, is regarded by the commissioners as convincing evidence of the effectiveness of the new dog warden system.

On this basis, sheep losses for the year would run less than $3,000. In 1927, claims allowed amounted to approximately $4,200.

Under the old law claims were paid annually in December. The new statute provides for payments quarterly. The next allowances are scheduled for the first meeting of the commissioners in June.

Enforcement Rigid

The small amount of damage to sheep during the first two months of the year, a period when sheep-killing dogs are as a rule unusually active, is due mainly to rigid enforcement of the dog license law by the county warden and his assistants, the commissioners believe.

The total of $638.65 allowed yesterday includes both sheep claims and witness fees, the fee payments, however, being a very small percentage of the amount.

Claims included in the list together with the number of sheep killed or injured in each case, were as follows:

John Ruth, Green Camp township, one sheep, $13.60; J. F. Dietsch, Richland township, four, $24.50; O. J. Burkhart, Tully township, one $13.45; George M. Kurtz, Tully township, six $63.45; V. E. Shoots, Grand Prairie township, twelve, $116; F. D. Isler, Prospect township, twelve, $201.10; Harley Reed, Prospect township, twelve, $88.60; Wesley Roberts, Salt Rock township, two, $27.40; G. E. Kennedy, Tully township, two, $29.50; Swarel Bros., Grand township, three, $29.50; Bardon & Ashworth, Salt Rock, three, $16.55; Daniel Seiter, one, $15.

ORDINANCE NO 2847

PROVIDING FOR THE ISSUANCE OF PERMITS FOR THE ERECTION OF BUILDINGS AND OTHER STRUCTURES, ETC., WITHIN THE CITY OF MARION, OHIO, AND FIXING THE FEES THEREFOR.

Be it ordained by the Council of the City of Marion and State of Ohio:

Section 1. That it shall be unlawful for any person or persons, firm or corporation, either directly or by or through any agent, servant, or employee, whether contractor, owner, or otherwise, to proceed to or erect or construct any building, structure, bill board, or any addition or improvement thereto, except in the way of necessary repairs, within the City of Marion, Marion County, Ohio, without first obtaining a permit therefor, which permit may be obtained in the manner following:

Application for such permit shall be made by the owner of such building, structure, bill board, addition or improvement, proposed to be erected or constructed, to the City Clerk of said City, which application shall contain the following information: Description of premises, (Land or Lot Number, etc.), on which located, Name and number, and side of Street where located, Dimensions of building, structure, etc. (length, width and height); Material to be used, and if in fire limits, thickness of walls; kind of roof; contract price or estimated cost; and such other information as may be required by the Clerk; such application shall be signed by the applicant, who shall pay to said Clerk before the permit shall be issued, a fee based upon the following schedule.

For any building, structure, bill board, addition, or improvement, for which the contract price or estimated cost is,

$200.00 or less, a fee of.....$0.50
More than $200.00 and not more than $1,000.....$1.00
For each additional $1,000 or fraction.....$1.00

Section 2. The Clerk shall keep a complete record of all applications made, permits issued, and fees collected, and shall certify a complete list of permits issued to the County Auditor, as provided by law; all fees collected shall be paid once each month to the City Auditor and credited to the General Fund. A daily list of applications made and permits issued shall be furnished by said Clerk to the Building Department.

Section 3. Before issuing any permit, the Clerk shall ascertain if such building, structure, etc., proposed to be erected is contrary to any zoning or other ordinance, or regulation of said city, or the laws of Ohio, and if so such permit shall not be issued; or if under misapprehension of the facts or through mistake or error, a permit be issued, and it later be ascertained that such is the case, then such permit shall be revoked; or if it be ascertained that the building, structure, etc., actually being erected is not in accordance with, or is prohibited by any ordinance or regulation of said city or the laws of Ohio, then such permit shall forthwith be revoked.

Section 4. Any person, firm or corporation violating any of the provisions of this ordinance which relate to the securing of a permit, as above provided, before proceeding to, or erecting or constructing any building, etc., shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined in any sum not less than $10.00, nor more than $100.00 for each offense; and in the case of a corporation, the person or official responsible shall be considered the guilty party.

Section 5. All ordinances or parts of ordinances in any way conflicting with the provisions of this ordinance be and the same are hereby repealed.

Section 6. This ordinance shall take effect and be in force from and after the earliest period allowed by law.

Passed February 27, 1928.

E. M. MURPHY,
President of Council.

Approved Feb. 28, 1928.
By Karl Hazen, Mayor.
Attest: E. H. Keller, Clerk.

Increase of 27 Per Cent is Reported by Co-operative Shippers at Annual Meet

E. C. Rector, Circleville, Urges Betterment of Social, Living, Religious and Educational Conditions Through Economic Progress in Rural Communities

An increase of 27 percent in business handled in 1927 over the previous year was reported by Roland L. Leeper, manager of the Marion County Livestock Co-operative Association, at the annual meeting of the organization last night in Schwinger's Hall, N. Prospect-st.

More than 100 association members and their wives attended the banquet and meeting. Dinner was served by the Ladies' Aid Society of Claridon Township.

A definite date for shipping livestock will be set in the near future, according to Leland Sour who started as assistant manager of the local association in February. This is being done, he said, to eliminate unnecessary expense and to simplify the task in getting together full cars. He pointed out the fact that Cleveland market reports are being received daily at the office of the Marion County Farm Bureau. Members were urged to avail themselves of this market privilege.

The principal address was given by E. C. Rector, Circleville, president of the Pittsburgh Producers' Association.

In his talk he urged a betterment of living, social, religious and educational conditions in rural communities through economic progress.

Marketing Increases

He reported that cooperative livestock marketing has been increasing by leaps and bounds since it first started and every effort is being made to better the service offered by the association. Cooperative marketing scored a victory, recently, the speaker continued, when the United States Supreme Court returned a verdict in its favor.

At the present time, Mr. Rector said, about one third of livestock going into markets is being handled by the cooperative association. The price level is governed by supply and demand and at the present time the association is doing much to set this level.

It is planned, according to the speaker, to do more shipping direct to the packer. This method of shipping it has been shown, has no effect on market centers.

Others who appeared on the program were H. F. Althouse of Wyandot County, J. A. Dunsmore of Columbus, representing the Eastern States Co., R. J. Elliott of Richland County, Ray Gatewood, president of the association, acted as chairman.

Tonight a meeting of the Wool Growers Cooperative Association will be held in the courtroom at the Courthouse.

Medical Science Amazed as Young Girl Continues Unconscious For 53 Days; Brain Cells Scattered, Physician Says

Condition Is Result of Automobile Accident on Jan. 15, Is Claim

CASE HAS SET RECORD

Has Not Spoken Word and Has Not Moved Her Limbs

HELEN BUSCHMANN

Dr. [illegible] Marsh, Mo[illegible] physician, declared by the remarkable case of Helen L. Buschmann, 19-year-old student of 21 Peerless, Wyandotte, who has been lying unconscious in Lake County Memorial Hospital in Painesville for 53 days.

She lapsed into an unconscious state on Jan. 15 when she was struck by an automobile bus and immediately removed to the hospital. Since that day she has not spoken a word and has not moved, except for occasional nervous gestures over which the mind has no control.

"It is one of the most amazing cases in the history of medical science," Dr. A. N. Marsh of Painesville, the attending physician, said in an interview with International News Service today. "She is in no immediate danger of death. She can go on living in this unconscious state indefinitely—even as long as a year, perhaps five years. As far as I know the case has set a record for the length of time a person has remained unconscious."

Mother at Bedside

At the girl's bedside, day after day, is her mother, Mrs. Emma Buschmann, who rushed to Painesville from Massachusetts, when she learned that her daughter had been injured. The mother declined to comment upon her daughter's strange case.

When the girl, who was a student at the Lake Erie College here, was struck by the bus her right leg was fractured and Dr. Claude Beck, Cleveland, one of the country's leading surgeons, was called into the case. He successfully removed a piece of bone that had been pressing down on the brain. The girl failed to revive, however.

"Her brain cells are scattered," Dr. Marsh said. "The shock of the blow shattered and separated the multitude of tiny connections that make up the brain cells. The entire surface of the brain was injured. It is just as if the wires in a complicated switchboard had been suddenly ripped apart. It is a question as to how soon, if ever, the damage can be repaired."

Fed Twice Daily

Dr. Marsh calls on Miss Buschmann twice each day, in the morning and at night. She is fed each time he calls. She will not swallow any food so it has to be injected into her stomach by means of a tube. Liquid foods, consisting mostly of broths, milk and dextros, have been injected. The digestive organs have functioned properly. Her body functions go on normally, although she lies unconscious and inert. Her weight is about 120 pounds as I she has lost only a few pounds since the accident occurred. All the injuries resulting from the accident have healed with the exception of the damage to the brain.

"Her pulse and temperature is practically normal," Dr. Marsh said. "The brain has no control over the action of the heart."

M. G. Goddard, superintendent of the hospital, who is also intensely interested in the case, said it has been proved in experiments with pigeons that the brain can be taken away and that the bird will continue to live. He declared that functions of breathing and the beating of the heart go on as usual.

Danger of Pneumonia

Dr. Marsh said the unusual case of Miss Buschmann shows how long the body can carry on without the control of the mind. The body is not paralyzed. The girl occasionally moves her hand slightly and her feet occasionally. Now and then she turns her head. Her eyes frequently look directly at the doctor but show no sign of recognition. The action of the eyes is not voluntary. She yawns naturally at times. She never speaks. However, she does make an occasional noise with her mouth, demonstrating that the vocal chords are not paralyzed.

The greatest danger she now faces is pneumonia, rather than insufficient food. She requires only 1,500 calories a day as she is getting no exercise and is in good physical condition.

"This remarkable case has brought up the moral problem of whether or not it would be right to keep her alive," said Dr. Marsh. "But it is inconceivable that anything would be done other than what we are doing—keeping her alive and hoping for a favorable turn and a readjustment of her scrambled brain."

Mother Hopeful

In the opinion of Dr. Beck, the patient may remain in her present condition for months. If the brain cells regain contact, use of the limbs may

Heart-Broken Mother Continually at Bedside of Her Daughter

[illegible] said. The girl is massaged daily to keep the blood in good circulation and the limbs are exercised by rubbing and bending. Through all the treatment, the pretty girl student shows no signs that she is aware of [illegible] transpiring. A flattened eyelid or a soft moan is the only indication that she exists.

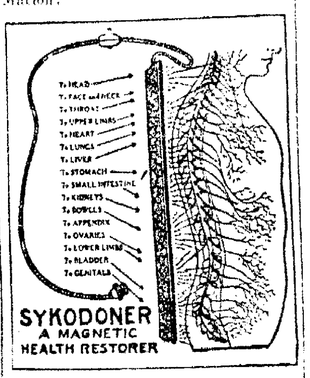
The heart-broken mother, watching over her daughter, clings to every vestige of hope. Every slight movement of the body of her unconscious child brings a gleam of hope to the eye of the mother, for pure pathos the case is almost without parallel.

HE DOCTORED FOR 20 YEARS

SYKODONER — That Most Marvelous New Treatment—Was This Man's Savior.

Well-Known Marion County Farmer Has Good Reasons For Now Being Happy.

"My heart goes out to the unfortunate chronic sufferers who can find no relief elsewhere," said the Sykodoner Man, the other day. He continued, "Why will they continue to waste valuable time and money, and prolong their misery, when the Sykodoner—the most amazing discovery of the present age, is now available, right here in Marion?"



"Here is the proof. Mr. John Reckle, one of the best known good farmers, of R. F. D. 5, Prospect, Ohio, suffered with neuritis and kindred ailments, for at least twenty long years. Thousands of dollars were spent in vain search for relief. Yet, Mr. Reckle's suffering only grew worse. Finally eight years ago, Mr. Reckle was compelled to give up farming, as much as he regretted to do so. His search for relief continued, however; but without success—until one lucky day for Mr. Reckle, his eyes feasted upon a newspaper article, telling about the marvelous new treatment—the Sykodoner. Mr. Reckle was sceptical; yet he wanted to see for himself. That was seven months ago; and they have been happy months for Mr. Reckle. His many friends are astonished at the fine appearance of Mr. Reckle now. And nothing seems to please the latter more, than to tell the afflicted all about it. His heart goes out to them; he sympathizes with them, and wants them to have the same opportunity that meant so much to him."

DEMONSTRATION FREE

Regardless who you are, rich or poor, see the Sykodoner Man, today; and let him show you the most amazing phenomena of your life. It is the most amazing demonstration you ever before saw in all your life. You may not be able to explain it; but, it is here in Marion now. Do not fail to see it. Calls made to homes—if necessary, without cost or obligation.

FEAR SMALL TARIFF BATTLE ON SHOALS

Alabama Democrat to Sponsor Amendment Repealing Duty on Ammonium Phosphate

Washington, March 8—A small sized tariff war may be projected into the Senate debate over disposition of the government's $100,000,000 Muscle Shoals project, it was learned today.

Senator Fletcher, Democrat of Florida, announced he would sponsor an amendment to the Muscle Shoals bill, repealing the tariff on ammonium phosphate, used as the basis of fertilizer. He said he would take this action to determine whether the Senate really desired to lift the fertilizer burdens from American farmers.

"The tariff on ammonium phosphate is $30 a ton," said Fletcher. "Ammonium phosphate is 60 per cent plant food. It has most of the ingredients, desired in fertilizer, except potash. Many farmers, however, use potash separately. If the senators, who talk of lifting fertilizer burdens from the farmers, mean what they say, they will repeal this tax on fertilizer. I shall give the Senate an opportunity to vote on it."

Administration leaders have fought every similar move to attach tariff-reducing legislation as "riders" on other measures. They have denounced all "efforts to tinker with the tariff."

Leaders on both sides were hoping for a vote in the Senate by Friday afternoon. There was a possibility though that debate might be extended into next week.

FISHES HAVE HONEYMOONS, TOO, DECLARES PHYSICIAN

Le Havre, Seine Inferieure—Fishes have honeymoons as well as people, according to Doctor Louis Roule, Professor at the Natural History Museum in Paris, who gave an amusing lecture here recently.

Dr. Roule showed that as soon as spawning time comes, the cod, tunny, eel and shad all seek warmer waters. The funny takes his honeymoon trip to the coast of Tunis and Tripoli, while the eel goes thousands of miles under the water to the West Indies. The shad, a salt-water fish, usually goes up the river with his mate when warm weather comes.

SENTIMENTAL COLORS ARE AMONG NEW SEASON SHADES

London— Six "sentimental" colors, two poetic shades of brown, a maize yellow and an Atlantic blue contribute to the ten new colors women will wear this spring.

They are on the shade card, just issued by the combined British dyers, fabric manufacturers and dress designers. This month and next they will be seen in London shops and dress parades.

Gazelle is one of the six "sentimental" colors. It is described as a "neutral" hue, and is recommended for brides who do not care to wear the traditional white.

Other of the "sentimental" shades are "passion-flower," a soft mauve tint, "blush-rose," a lovely pink, and "bluette," a shade of blue which is understood to have met with the approval of the Queen.

SPENDS $12,000 TO PUT GRIDIRON FIELD IN SHAPE

Berkeley, Cal.—The turf gridiron at California Memorial stadium became a field in fact as plows dug deep into the earth, the first step in a $12,000 reconditioning program for the habitat of the University of California Golden Bear footballers.

The program under the direction of H. W. Shepherd, assistant professor of landscape architecture at the university, includes the addition of 60 tons of Monterey sand and 240 tons of loam to the surface of the gridiron.

Tractors will sub-soil the field after which it will be treated with chemicals to neutralize lime. It will subsequently be seeded and players will be forbidden to use the new turf for spring practice.

A $7,000 rubber covering has been ordered that will cover the entire field

DANDRUFF
A Sure Way to End It

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.—Adv.

Annual County Tourney To Get Under Way March 20

Expect 40 Teams To Enter In Meet

Rules and Regulations of Y. M. C. A. Amateur Basketball Tourney Announced Today by Director F. O. Rudolph; Entry Blanks Appear on This Page

BY KARL R. McELROY
Sports Editor

The outstanding event in Marion County basketball the annual Y. M. C. A. tournament will be held this year starting March 20 and continuing for a period of 10 days, according to plans announced today by F. O. Rudolph, "Y" physical director.

In cooperation with the Y. M. C. A. athletic committee the Marion Star through the medium of the sport page is carrying today entry blanks necessary for teams to enter the meet. These appear elsewhere on this page and managers of teams are urged to fill them out and return them as soon as possible either to the sports editor of the Star or to the Y. M. C. A.

As has been the case during past years, the tournament will be divided into three divisions—class A, class B and class C. Entries in each class will be limited to 16 teams with Classes A and B starting play on March 20.

To Play At "Y"

All contests, according to present plans, will be played on the two courts at the Y. M. C. A. building, S. State st. The meet will be operated under the personal direction of Mr. Rudolph and the athletic committee.

From present indications the tournament this year will find at least 40 teams taking part. Although no plans have been previously announced for the annual affair, many inquiries have been received from teams all over the county.

"Pick-up" teams will not be considered by tournament officials and all players must of a strictly amateur standing in county cage circles.

Complete details of the tournament are listed below in rules and information compiled by officials:

Rules of Meet

Class Divisions: Class A, 18 years and over; Class B, 15-17 years; Class C, under 15 years old.

Number of teams limited to 16 in each class. The committee reserves the right to refuse any entry.

Each team may enter eight men. Each member of the team must fill out one of the amateur registration blanks.

The team manager will forward the blank together with entry and a team entry fee of Class A, $4.00; Class B, $3.00, Class C, $2.00 to F. O. Rudolph, Secretary, Y. M. C. A., Marion, Ohio.

Entries close March 16 at 6:00 p. m. Absolutely no entries accepted after this date. Drawings will be made by the committee March 17, and managers will be notified of their schedule on March 19.

All teams must represent some club or organization which will be responsible for the amateur standing and gentlemanly conduct of its players. Each team must be accompanied by a non-playing manager.

All players must be amateur. Any player may be protested who has not played at least two games in January and two games in February with the team with which he is entering. A list of games and scores including the names of officials and their addresses enclosed with the entry blank. The tournament is concerned only with those teams who have been regularly organized for competition throughout the season. The protest of any member of a squad will be sufficient to bar the entire team at the discretion of the tournament committee.

Players may be protested at any time during the tournament for such infringements as illegal age given, playing under assumed names, etc. The committee reserves the right to expel any player or team that refuses to abide by its decision.

A suitable trophy will be presented to the club or organization represented by the winning team in each division.

Any team failing to keep its appointments will forfeit all right to further participation in the tournament.

Protests on any individual player or team must be made to the committee on blanks to be provided. Each protest must be accompanied by the sum of $2.00 and documents proving the case. Protest fee will be returned if the protest is granted.

Tourney Information

In finally selecting the team entries the committee will give preference to those teams whose entries were received first. Questionable entries will delay acceptance.

The committee, however, will hold very strictly to the announcement that entries will be accepted only from clubs and organizations which are in a position to be held responsible for the conduct and amateur standing of their players. For the above reason the committee wishes the following information from the manager of each team:

1—What is the status or business of the club or organization which you represent?

2—Have any of the players you have entered played with any other organization during the past 30 days? If so, with whom, how many games and against whom?

3—To whom may the committee write, if necessary to decide the point, to secure further information on the status and organization of your team? Mention several.

Notification of official acceptance of entry will be forwarded at the earliest possible moment. The entry fee will be returned entire to the manager of any team which the committee thinks best to bar, unless gross misrepresentation is made.

The purpose of the committee in requesting this information is to protect the tenius as a whole from these groups which continually persist in drawing stars from other teams after their season is over. The purpose of this tournament is for clean, competive play between regularly organized teams and no consideration is given to "pick-up" teams that are simply brought together for this particular occasion.

The English turf has a new champion jockey in the person of Gordon Richards, who was victorious in 104 races in the season just ended.

JUNIOR HIGH TEAMS TO PLAY SECOND OF CITY SERIES GAMES

Central and Vernon Heights Meet Friday Night in Star Auditorium

The second game on the Junior High School championship series will be played Friday night in Star Auditorium when Central attempts to end the winning streak of Vernon Heights.

In the opening game several weeks ago, Vernon upset the dope by defeating the Central cagers. In previous years the west enders have won the title.

Friday night's affair will be one for blood with Vernon anxious to win their first city championship and Central smarting under the sting of the first defeat. Both teams have established good records so far this year.

A preliminary contest will be played.

Probably no other performer in any branch of sport is able to boast of having established a dozen new American and world's records during the year now drawing to a close. This is the 1927 accomplishment of Johnny Weissmuller, the swimming ace of the Illinois Athletic Club.

Ecenbarger First To Enter Tourney

Star's Foul Shooting Contest To Get Under Way Saturday; School Students Urged To Send in Blanks Immediately; No Fees

Bright and early this morning the first entry in the Marion Star's foul shooting tournament was received. He is Dean Ecenbarger, eighth grade junior high school student.

The tournament will get under way Saturday afternoon at 1 o'clock in Star Auditorium when more than 200 contestants are expected to take the floor.

As a reward the Star will offer the winner a regulation basketball. This will be given free as no entry fees are required.

The only requirement in the tournament is that entrants be students in the schools of Marion or Marion County of no greater ranking than a Freshman in High School.

Each participant in the contest will be given one trial of 25 shots. At the close of the contest Saturday, March 17, the youth holding the highest percentage of wins will be awarded the ball.

The tournament promises to be an outstanding sport event for the students of the city. The Star is staging the contest in an effort to create interest in the sport.

The affair will bring to a finish a successful season in junior high ball circles. Don't forget, mail or bring your entry blanks promptly to the sports editor of The Star.

NO PLACE LIKE HOME

Augusta, Ga., March 8—Ty Cobb believes there's no place like home, especially the cooking. The veteran outfielder of the Athletics, who lives here, has asked Connie Mack for permission to work out with the New York Giants at their camp here until the A's arrive for an exhibition contest on March 10.

George Harper, New York's 36-year-old outfielder, has made a home run every day he has reported.

SENDS ULTIMATUM

St. Petersburg, Fla., March 8—Manager Huggins of the Yankees has dispatched an ultimatum to Urban Shocker, the recalcitrant spitballer. Shocker wrote Huggins that he had quit, but mentioned that he was dissatisfied with the salary offered him. This led Huggins to believe that an agreement might be reached.

Outfielders Combs and Meusel have not yet reported, but thy are not holdouts.

REGULARS WIN

Clearwater, Fla., March 8—Four hits by Partridge and a homer by Bissonette featured a practice game in which the Brooklyn regulars beat the Yannigans, 12 to 6.

Harry Riconda, infielder who formerly played with Philadelphia, Boston and Milwaukee, is making a good impression on Manager Robinson Robby may use him at third base, second or shortstop.

TO PLAY GAME

New Orleans, March 8—With every Tribesman in almost the best of condition, two teams picked from Chief Peckinpaugh's Cleveland Indians, will play their first regular practice game here today.

Glenn Myatt, who starred behind the bat for the Indians in 1924 and then because of a slump was replaced by Luke Sewell, told his teammates that he was working hard to "hit my old pace again" and share honors with Luke this season as regular catcher.

VOCATIONALS WIN

Harding High Team Defeats All Stars, 50 to 46

After a contest filled with fast scoring, Harding High School Vocationals emerged victors over the All Stars, 50 to 46.

Lamb led the winners to victory, scoring 16 points. Adams and James each scored 14 points for the losers.

10 VETERANS TO TRY FOR HARVARD NINE

Plenty of Material Will Be Developed by Former Chicago Manager

Cambridge, Mass, March 8—Fred Mitchell, former Chicago Cubs manager, is smiling these days and with right too. Fred is the coach of the Harvard University baseball team and there are no less than 10 veterans on hand for th nine.

Rookie material from the freshman teams of last spring and veteran material from the probation lists will also be a big aid to Mitchell, in his endeavors to raise the Crimson flag over the intercollegiate baseball world.

The War Department will be represented in the infield with Dwight Davis, son of the Secretary of that Department, on the initial sack. Davis played for the Freshman last year.

Johnny Carver on second, Ralph Sullivan at short and Everett Donaghy at third complete the infield.

Captain Howie Burns and Bill Lord are the veteran outfielders. Johnny Prior will probably do most of the catching for the Crimson this year.

Pitchers are the thing that Harvard has most of this year for a change. There is a veteran staff topped by Jack Barbee, hero of last seasons' conflicts. Frank Cutts, Willie Howard, Dick Ketchum and Ernie Molloy are other veterans of the 1927 twirling staff.

Thirty other pitchers and catchers are candidates for the battery position on the final squad that Mitchell will pick just before Easter.

The National Football League, the leading organization of professions, reports that the season just ended was the most successful in its history.

Two Marion basketball courts will be the scene of tonight's major basketball [illegible] go into action.

On the Star Auditorium floor six teams of the Industrial League will play while four teams are slated on the Y. M. C. A. floor in the Marion County Sunday School Basketball loop.

Both leagues will hold the interest of Marion fans as the race for leadership in both groups is very close and from present indications will not be decided until the final contests of the season.

The Sunday School League will close its season tonight with the leadership of Agosta being threatened by Trinity Baptist. A victory in the game, slated to start at 8 o'clock, will give Agosta the second half title while a loss would give Central Christians a tie. The Christians will be idle tonight, Asbury having forfeited their game.

The other contest at the "Y" is of only minor importance with United Brethren and Calvary slated to meet.

In the Industrial Loop, the C., D. & M. cagers will be given a real battle from Haber. The electrics are running in second place to the Osgood team and must win all games the balance of the season to tie the leaders. This game will be the last game on the card.

In the first game American Malleable and General Excavators will play. These two aggregations are to fight for last place.

Osgood Commercial is expected to maintain its leadership by defeating the Silk Mill team. However, an upset in this fray will leave the standings in a mixed up mess.

Discovers Marvelous New Antiseptic Oil-of-SALT

Just imagine an antiseptic with such astonishing healing powers that it is equally as effective for burns as for cuts! As effective for skin eruptions as for sunburn or scalds! It sounds almost unbelievable doesn't it? But at last science has accomplished the seemingly impossible!

Oil-of-SALT is a marvelous 3-fold liquid discovery:—a destroyer of germs—an instant killer of pain—and a miraculous healant! Wherever it is applied it banishes infection, stops pain and promotes rapid-healing at once. It is cool, mild and soothing. Never smarts or burns.

This remarkable antiseptic and *healant* is simply priceless in case of accident or when infection of any kind develops. Your druggist has it. Ask him for a handy 65c bottle today!

Senators Will Be In Way of Yanks

Stanley Harris Views Washington Club with No Distaste: New York Team Received Breaks Last Year; Admits Making Mistake

Editor's Note: This is the second series of articles by Davis J. Walsh dealing with training camp developments in connection with the major league ball clubs. Other articles of the series will follow:

BY DAVIS J. WALSH

Tampa, Fla., March 8—They called him the boy manager when he was winning pennants several years ago but today the boy was a man and he proved it as only a real man can by declaring that he, himself, Stanley Harris, was more than a little to blame for the fact the Washington Senators weren't a better ball club last year. It may not have been a strictly accurate estimate of the situation but he made it and he meant it and that, after all, is where the line at the pay window starts.

"Success" he said with that deprecating smile of his, "may have gone a little to my head," and let it go at that. Having lifted that vest-full from his abdomen, the first baseball man ever to admit publicly that a mistake was all his next turned his attention to the New York Yankees, who are one of the things to which you turn your attention at the slightest provocation or none at all. He doesn't think the Yankees are a kick-in for the pennant as the current version would have it, and cites as his reasons the following:

Six Good Reasons

1—The Washington Senators.
2—The Yanks' elderly pitchers.
3—The conviction that Ruth and Gehrig will not repeat their 1927 records.
4—The Washington Senators.
5—The belief that the Yanks got all the breaks last year and none of them happened to be bones.
6—The Washington Senators.

Quite so, Mr. Harris, with remarkable self-control is able to view the Washington Senators with almost no distaste. He thinks well and kindly of the Senators it seems and they think well of him. It is only when the question of the Yankees and the Philadelphia Athletics arises that kindliness is allowed to run in the outside lane. It appears that he concedes the former nothing and gives the latter slightly less. He didn't so say but I gathered that he somewhat disdains the venerable gentlemen of Philadelphia.

Just A Better Ball Club

The Senators? Well, just a better ball club, my good fellow, and right here. I want to say that I live only for the day when some manager will inveigle me into the clothes press to tell me in the spring that his club is worse, much worse.

Seemingly, there are only two abiding questions that the Washington club must answer this year and they deal with the matter of whether the outfit has a shortstop and a center fielder to take the place of Tris Speaker. The rest of it seems to be almost foolproof.

At the moment Sam West of Rochester is in there making them forget Speaker; that is, they no longer remember him for the entire 24 hours. Samuel, with the club last year, has failed to hit the ground with his bat down here. He, however, is getting the play because he is a better outfielder than either Foster Ganzel or Emile Barnes, Birmingham, Ala., citizens both. Ganzel hit like a fool in the closing weeks of the American League show last year and is still at it, more or less. Barnes, quite a football player at Alabama, is bursting them on the beezer, too, as we say at the emergency guild. John Kloza, of Milwaukee and Albany, Ga., is smiting them with much enthusiasm, they do say.

Simons May Be Left

This leaves only Melbern Simons, of Fulton, Ky., and I gather that that is what is likely to happen to him. To a man up a tall tree it would appear that the Washington club has yet to prove that it will be better off for the departure of Speaker.

At shortstop, another great Alabama football man, Grant Gillis, is giving Boob Reeves, the regular, quite a rolly. So is one M. C. Hayes, of Clanton, Alabama, and Birmingham. Harris says Hayes reminds him of Lazzeri when Tony came up two years ago. He is certain that he will get a major league shortstop from one of the three mentioned. Ernest Smith, of Kansas City, and Tom Taylor, of Houston, Texas, are around and so is the inevitable Ernest Shireley, although it may be that the latter is going for a ride soon.

Six of the nine positions are assured, it appears, and a seventh only is a matter of choice between Sisler and Joe Judge.

One of these, Irving Hadley, is at a local hospital, laughing merrily off an operation for appendicitis but Harris declares he will be ready by mid-April. Hadley and Lisenbee were two outstanding recruit pitchers of 1927. Milt Gaston, obtained from the Browns, is another big shot down here. Another regular right hander will be the veteran Fred Marberry, to say nothing of the even more aged Sam Jones. The place is simply overrun with left handers, and all of them, according to Harris, are good.

Muddy Ruel and Henry Tate will be the catchers, as of yore. Hugh McMullen, former Giant, is back from Louisville, and this time, he expects to hit better by batting only as a right hander. A fourth catcher is Al Cooper, of Flat River, Mo., and Birmingham. If he doesn't care to remain in either place, he can take the matter up with McMullen.

Harris and Ossie Bluege, will play second and third base respectively and Goose Goslin and Sam Rice left and right fields respectively. And oh, yes, Walter Johnson won't be with the club this year. This fact was duly discovered by an enterprising reporter several days ago.

ISALY DAIRY QUINTET WINS TOURNEY GAME

Piggly Wiggly Five Defeated by Local Aggregation at Columbus, 26 to 19

Champions of 1926, the Marion Isaly Dairies won their first game in the Ohio State Journal tournament at Columbus last night, defeating the Piggly Wiggly five, 26 to 19.

The local team led at the half 20 to 7 but slowed down during the final period. Penry was the outstanding star, scoring 11 points. The work of the guards was also good.

SHARKEY AND RISKO WORKING OUT IN N. Y. FOR COMING BATTLE

Johnny Confident That Jack Will Not Be Able To Stop Him

New York, March 8—Pursuant to orders issued by the New York Boxing Commission, Jack Sharkey and Johnny Risko are tossing leather at local gymnasiums today and will be on exhibition each afternoon until Sunday.

The Cleveland rubber man bounced in yesterday morning and unlimbered his light artillery on two sparring partners imported from his home city. Sharkey arrived last night, accompanied by Johnny Buckley and will work out today.

Jimmy Johnston, the famous 10 per center, says Sharkey is in first-class condition.

"Sharkey is in better shape for this fight," asserted Johnston, "than he was for Dempsey last summer and there is no comparison with the Sharkey who mauled through 15 rounds with Heeney in January.

Risko went on the road yesterday morning; and appeared at the St. Nicholas gym here early in the afternoon with his two Cleveland light heavyweight sparring partners, Frankie Lennon and Jess Baulnight.

The rubber man sparred four easy rounds and did some work on the punching bags. Risko is not impressive in training. He regards it merely as part of the show, for he is always in condition. He showed little brilliancy yesterday. Johnny doesn't expect to outbox Sharkey. He predicts, however, that he will wear the Boston gob out in 15 rounds.

"He won't stop me," Johnny declared, "but I may win inside of 15 rounds. I was a crude youngster when Sharkey took a decision over me two years ago in Boston. I've learned something since."

Risko weighed 193 after yesterday's workout.

"Red" Chapman, the Boston feather weight boxer, is contemplating an early visit to Europe in response to an offer of $25,000 to engage in four bouts in England and on the Continent.

Hot cabs—sudden draughts—muscular strain

But no rheumatism for these 249 locomotive firemen and engineers

"ONCE a railroad man—always a railroad man," they say. There's a fascination about the life that holds a man, once he's started on it.

No easy berth either—whether you drive the engine or fire the boilers. It's a tax on the strongest muscles, and you're always in danger of catching a chill from the extremes of heat and cold going in and out of the cab.

What do these hardy men do to keep their muscles strong and supple for their work? How do they ward off colds, chest congestions, rheumatism?

We went right to some locomotive firemen and engineers and asked them these questions. 249 whom we asked said, "We use Sloan's."

The standby of workers everywhere

Ask any group of active men or women these same questions and two out of three of them will give you the same answer. Sloan's is the best thing you can use to keep muscles supple under the hardest work, to kill the pain of overstrain or small injuries, to prevent colds and rheumatism.

This locomotive engineer is one of 249 railroad men who told us of the protection that Sloan's gives against rheumatism, colds, muscular pain

Read this letter from a fireman on the Union Pacific:

"I am a fireman on Union Pacific R. R. I was taken sick in Maryville, Kansas, and I worked back to Kansas City with pains shooting all over my back. As soon as I got to Kansas City I got a bottle of your wonderful liniment and started to put it on. It did me a whole lot of good, and, for me, I wouldn't be without a bottle at any time. I carry a bottle in my grip all the time on road. After each trip I put some Sloan's on." *C. R. Ellis, 3350 Gillham Road, Kansas City, Mo.*

* * *

The minute you apply it you begin to get relief. And it doesn't just deaden the pain temporarily—it *gets rid of it*. It stimulates the circulation, breaks up congestion, clears out germs and poisons, and the pain stops because the cause is removed.

Get a bottle today and have it on hand. You never can tell when it may save you hours of agony—days of lost time. A bottle that lasts a long time is only 35 cents and you can get it at all druggists. Use it for:

Rheumatism — *Lame muscles*
Sciatica — *Stiff neck*
Lumbago — *Colds and congestions*
Neuralgia
Sprains and bruises

Here's what the company doctor of one of the big railroads says of Sloan's: "People whose work exposes them to strain or to damp and cold usually suffer from a good deal of muscular soreness. We find that Sloan's gives them quick, positive relief."

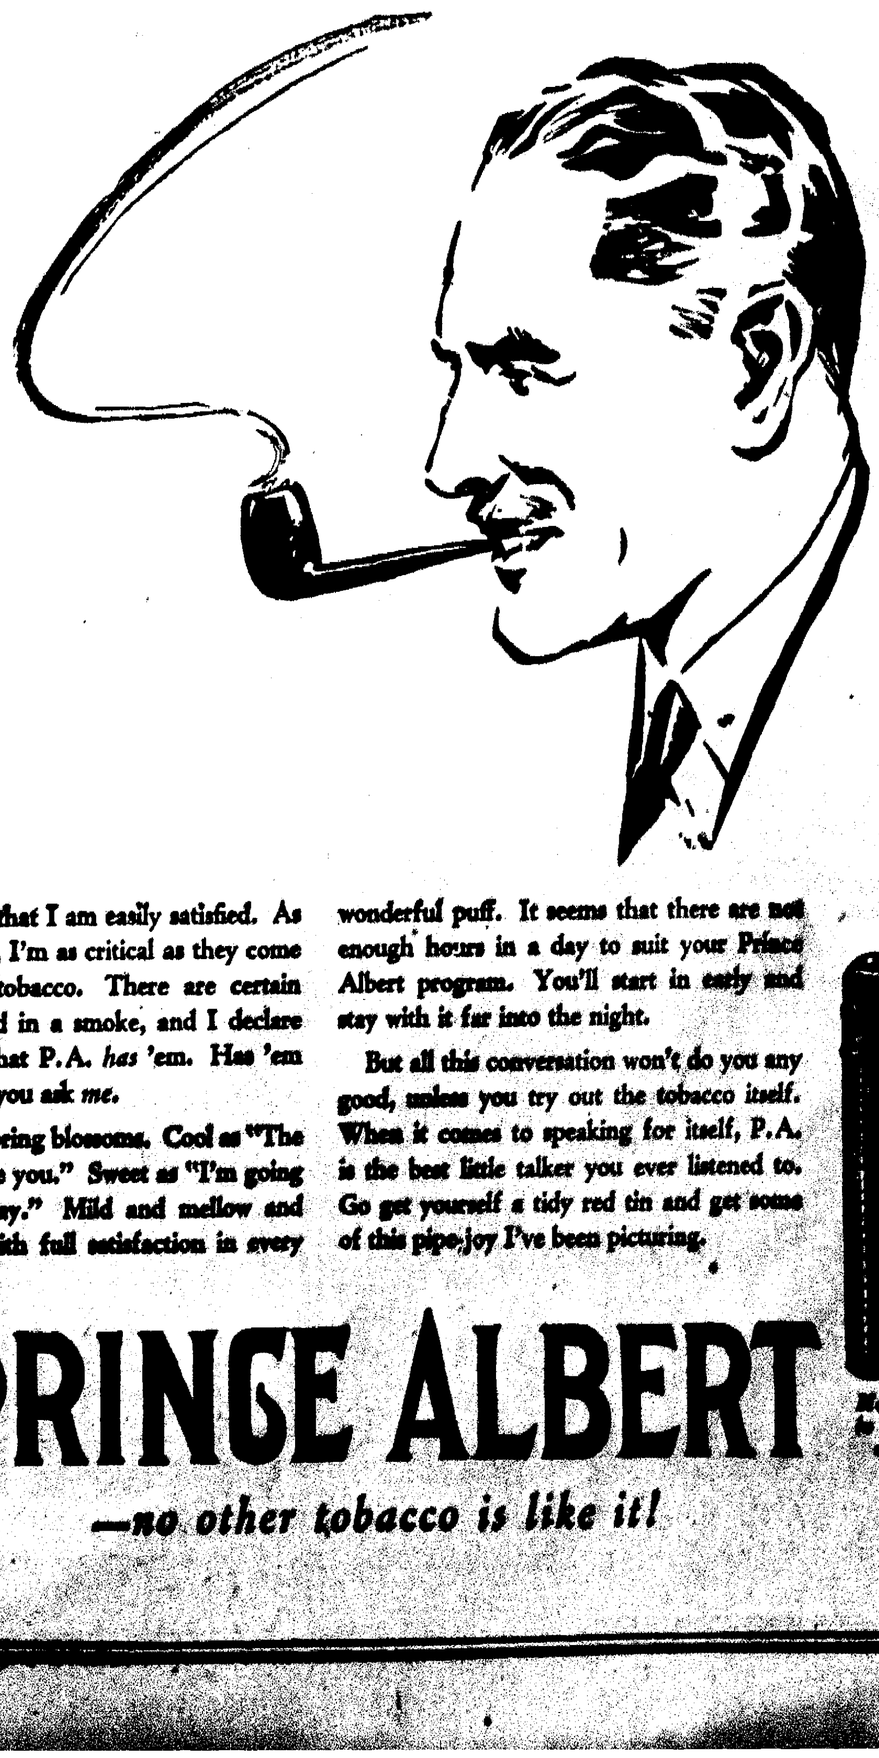
P.A. and a pipe—*that's all I ask*



I DON'T mean that I am easily satisfied. As a matter of fact, I'm as critical as they come about smoking-tobacco. There are certain things I demand in a smoke, and I declare here and now that P.A. *has* 'em. Has 'em and to spare, if you ask *me*.

Fragrant as spring blossoms. Cool as "The boss wants to see you." Sweet as "I'm going to raise your pay." Mild and mellow and long-burning, with full satisfaction in every wonderful puff. It seems that there are not enough hours in a day to suit your Prince Albert program. You'll start in early and stay with it far into the night.

But all this conversation won't do you any good, unless you try out the tobacco itself. When it comes to speaking for itself, P.A. is the best little talker you ever listened to. Go get yourself a tidy red tin and get some of this pipe-joy I've been picturing.

Here in quality, more in quantity—TWO full ounces in every tin.

FAMILY BUREAU FOR HOME STUDY, REMEDY

Chicago Judge Offers His New Plan To Cure Divorce Evil

Chicago, March 8—A family research bureau, where couples who now spend their time in bridge, motoring and the theater, could obtain a practical knowledge of domestic problems was advocated here as another cure for the growing divorce evil by Judge [illegible]

Marriage Sick

"The American home is a marriage [illegible] something to be worked out [illegible] Chicago home.

"But the public is [illegible] complacent. The young people [illegible] blamed. The young leaders of young men to avoid marriage until they are in financial a fog is a new fortune. Too often those who make are in spiritual a shortage.

"The greatest [illegible] married life is to take love for granted. Religious love-making after marriage is the real solution of the problem but modern youth is unacquainted with the proper methods to employ.

"The spirit of speed, consumption of women, economic marriage with both husband and wife working, the 'rabbit hop' flat buildings and the growing disregard for law were named by Judge Sabath as contributing factors to the domestic discontent today.

Research Institutes

"Research institutes should be formed in all cities large or small where modern youth is faced with marriage problems. Farming communities are not so discontented as are the large centers of population.

"Divorce judges, psychologists, philosophists and others whose everyday life engrosses the problems of today should be called into consultation and logical formulas should be developed.

"In a clear way the marriage problems could be unfolded to newly married couples and many of the discords and wrinkles in their lives could be ironed out at the start thus doing away with the long processions to divorce courts."

PASSENGER COACHES TO HAVE ROLLER BEARINGS

Denver—Railroad officials and mechanical engineers are watching with interest experiments being made with roller bearings for railroad passenger cars, according to J. M. Taussig of St. Louis, president of the Wabash railroad, in an interview here recently while en route from the Pacific coast to his Missouri headquarters.

"Roller bearings will probably be the next great improvement in railroad passenger equipment, Taussig said, "and they may eventually be used on freight cars."

Prices Lag As Loan Increase Appears Likely

G.M.C. STOCK GOES RAPIDLY

Testimony of Bank Heads Indicate Rate Will Not Be Raised

New York, March 8—The prospect of another large increase in brokers loans, to be shown in the weekly reserve board statement after the close of the market today, proved to be an effective barrier against the spectacular forward movement of industrial stock prices, and for the most part, the market marked time while awaiting the report. After an advance in the first period to a new high at 151½, General Motors was freely supplied to the market at about a point lower, and the bulk of the trading in the next three hours was at a price between 150 and 150 3-4. Hudson motors retained its popularity around 70, and both Chrysler and Studebaker were well bought at or near the highest prices of the year. All of these companies have had an unusually heavy call for their products, and the January-February shipments shattered all previous records.

From testimony given at the finance committee hearings at Washington by the Reserve Bank heads and other well known authorities, Wall Street inferred that there was little danger of a further increase in the rediscount rates of the local reserve banks. A decrease in the rates of the eastern banks was even suggested by Roy A. Young the new governor of the Reserve system.

"It was apparently shown to the satisfaction of the legislators at Washington that the expansion in brokers loans was not out of proportion to the general increase in banking resources etc., and that legislation to curb loans on stock collateral was unnecessary and undesirable.

Today in Marion Markets

Groceries, Produce, Meats, Grain, Livestock

Fruit and vegetable markets were carrying large supplies of practically all kinds of seasonable fruits and vegetables today with prices showing but little change from yesterday. New vegetables continued to supply a limited demand due to the high prices which still prevail for these delicacies. New potatoes were holding at two pounds for 25 cents, the supply being only fairly large and the demand limited. Dealers were carrying a few new peas today that were selling at 20 cents a pound. New beets were selling at two bunches for 25 cents and cucumbers at 25 and 30 cents each.

Leaf vegetables were plentiful, spinach was holding at 18 cents or two pounds for 35 cents, while leaf lettuce continued to sell at 15 cents. Head lettuce was being offered at 10 and 15 cents. Endive was holding at 25 cents. Hothouse tomatoes were slightly more plentiful today and were selling at 30 cents. Green onions continued plentiful and dealers reported heavy sale at 10 cents a bunch.

Oranges continued to sell at a wide range of prices. Small California varieties could be bought at 10 for 25 cents, small Florida varieties at 17 for 25 cents while larger sizes were selling at from 25 to 65 cents a dozen. A few California grapes were being offered by dealers today at 30 cents a pound and were moving slow.

Retail meat prices were steady today. Dealers reported no change in prices with buying about normal. Pork products prices continued low, with no prospects for an immediate advance.

TODAY'S REVIEW OF YESTERDAY'S MARKET

Chicago, March 8—Wheat prices yesterday moved into new high ground for the present upturn. The March delivery featured the trading by selling at $1.40, the highest point since September, and closing at a premium of 1c over the May, when foreign buying, uncovered stop-loss buying orders.

Influenced by the strength in March, bullish foreign news and further reports of crop damage, May went to a new high of $1.38⅝, and July sold at $1.37¾, the highest price on the crop. Closing prices were 1¼@2¾c higher, with March at $1.39½, May $1.38½, July $1.37¼ and September $1.30¾.

Corn averaged higher, but was under persistent pressure from realizing sales and evening up in anticipation of the government report on farm reserves, due after the close today. The market closed steady, ¾c higher to ¼c lower, with March at 95⅝c, May 98⅛c, July $1.00⅝ and September $1.01⅞.

Oats prices were limited to a narrow range and finished steady to ⅜c lower. Rye was inactive, failing to respond to the upturn in wheat and news of foreign demand, closing 1c off to ¼c up.

Foreign wheat markets were all firm, which placed the local market in a position to respond to any favorable news. Liverpool opened about 1¼ to 1½d lower and developed a firmer tone late, finishing ½d lower. Buenos Aires was unchanged to ¼c higher at midsession, closing 1@1½c up. Winnipeg opened unchanged to ½c higher and advanced with the local market, closing 1@1¼c higher.

Houses with seaboard and foreign connections were absorbing March wheat persistently and when the price reach $1.38 stop-loss buying orders were encountered and a sharp bulge to $1.40 ensued. The reaction was almost as rapid as the upturn, but further short covering hardened prices again before the close.

Foreign News Bullish

Other foreign news was bullish, which gave a strong tone to the May. Advices to a local commission house concerning wheat and rye in Germany were construed as extremely bullish and were accompanied by buying orders. Export demand was only fair, but sales were estimated at 300,000 bu, with some worked to Antwerp and Hamburg.

Unfavorable crop conditions were reported not only from the Ohio Valley but from the Central West as well. While traces of precipitation were received in the dry sections southwest, the forecast is for clearing weather.

Cash wheat trading was quiet, mainly because of limited offer offerings. Receipts of 21 cars were mostly on previous contract. The trading basis was unchanged and firm, and prices ruled ½c to 1 1-8c higher with the futures. Local sales totaled 17,000 bu. Deliveries on March contracts, 1,000 bu.

Marion Boys Answer Lure of Open Road In Attempt to Reach Florida; Land in Jail

Three Marion boys who were unable to resist the lure of adventure and a desire to see some of the country are again back in the old home town after a journey which ended several days ago when they were picked up by police authorities in Richmond, Va.

The trio of youthful nomads are Allen Campbell, 15, whose home is on the Harding Highway, a short distance west of the city, Ellis Williams, 16, Gay-st, and Paul Eymon, 14, Thompson-st.

They have been at the Juvenile Detention Home here since being brought back from Richmond, Tuesday, and were scheduled for an appearance before Judge McNeal of Juvenile Court some time today.

The boys had been missing since Feb. 22 and their disappearance was reported at once to local authorities. All efforts to trace the runaways proved futile, however, until the message was received from Richmond stating that they were safe in the hands of officials there.

The boys had only a few dollars in their possession when they began their expedition and this fund was practically exhausted when Richmond was reached.

Freight trains and "thumbed" rides in automobiles provided them with transportation, they informed authorities.

The trio gave no particular reason for running away, their only explanation being that they "wanted to travel."

The Campbell and Eymon boys also say that they were tired of going to school. Florida had been decided upon as their destination the boys state.

V. H. Aller, juvenile court officer, and Mrs. Aller went to Richmond and brought the runaways back to Marion, arriving here Tuesday night.

SPECIAL SERVICES WILL MARK CLOSE OF CAMPAIGN

Adjutant Harrison, Columbus, divisional Young People's Secretary of the Salvation Army, will assist with the services which will mark the close of the "Do Your Best" campaign at the Salvation Army Hall, N. Main-st, Saturday and Sunday, it was announced today by Capt. Perry Holden of the local corps. A special surprise feature is being arranged for the service Saturday night. The campaign has been in process for six weeks with appreciable gains in attendance and membership in the various departments of the army, particularly in the young people's divisions.

SMALL LOSS FIRES KEEP LADDIES BUSY

Three Calls Are 10 Minutes Apart; One at Steam Shovel Plant

With three calls coming in 10 minutes apart the Marion Fire Department yesterday were given a taste of big city fire fighting. At 4:05 o'clock firemen from the Central Station answered a call to the home of Royal London, 699 Wilson-av, where sparks from a chimney had set fire to a shingle roof. The blaze was extinguished with chemicals with a loss estimated at $15.

Ten minutes later the department from the No. 3 station answered a call to the home of John Butler, 252 Ballentine-av, where sparks had set fire to a shingle roof. This blaze was also extinguished with chemicals with a small loss. At 4:25 o'clock fire was discovered in the cupola of the gray iron foundry at the Marion Steam Shovel Co. plant and for the second time in 20 minutes, firemen from the Central Station responded to an alarm. The pumper from the No. 2 station also responded to the call. The blaze which had started from sparks, was extinguished with a small loss.

At 2:40 o'clock yesterday afternoon, Chief McFarland with several men from the Central Station responded to a call sent in by neighbors in the vicinity of the abandoned cemetery on Quarry-st, where the grass had caught fire. In order to avoid a second call, the remainder of grass was burned off by the firemen.

CONFESSES TO THEFT OF CHICKENS HERE

Harry Ebert and Harry Rentschler Bound Over to Grand Jury

A detailed account of how he and Harry Rentchler had stolen 21 chickens from a chicken house on the farm of C. L. Hecker, south of this city, Monday night, was drawn from Harry Ebert, by persistent questioning of Police Prosecutor Carter Patton in Municipal Court yesterday afternoon. The confession cleared the finding of 21 chickens by police in a coupe belonging to Ebert and resulted in both Ebert and Rentchler being bound over to the grand jury by Municipal Judge William R. Martin under $200 bonds each. Both were taken to the Marion Jail late in the day when they were unable to furnish bond.

A patrolman found the chickens in the coupe on Leader-av shortly after midnight Monday and taking up a trail that lasted until 6 o'clock, his patience was rewarded by the appearance of Ebert who attempted to start off with his chickens, doing so by the hands as the machine. He was placed under arrest and the chickens taken to Police Headquarters.

Later Tuesday Rentschler was placed under arrest when he was implicated in the theft by Ebert. A search made by the police Tuesday afternoon in the vicinity of the theft of chickens at the farm of Edward Rentler and C. L. Hecker men called at Police Headquarters but only Hecker was able to identify 17 of them however, and the remaining four still are being held.

FINED FOR COAL STEALING
William Weeks paid a fine of $5 in Municipal Court yesterday afternoon when he pleaded guilty to stealing 50 cents worth of coal from the Pennsylvania Railroad. Weeks was arrested on an affidavit filed by F. A. Gilson of the Pennsylvania police. The costs in the case were suspended on condition that he pay for the coal.

The Four-wheel brakes used on the Essex Super-Six are the same type used on costlier cars and assure the maximum brake safety, as well as the softness of control that you associate only with high priced cars. They merely typify the costly car way Essex is built throughout—and you can verify this detail by detail, inside and out, by comparison first with costly cars—and then with cars in the Essex price class.
The Essex Super-Six high-compression motor is patented and exclusive, and is so far as we know the most powerful and efficient motor of its size in the world.
The beautiful Essex instrument board is of ebony finish, grouping under instant direct light, motometer, gasoline gauge, oil gauge, speedometer and ammeter. Compare it with the costly car instrument boards—which it is like—and with instrument boards in its price class—which it is decidedly unlike.
World's Greatest Value altogether or part by part
Aside from such self-evident superiorities as its brilliant performance, beauty and quality that you can see and feel in the very upholstery, the wheel you handle and the hardware you touch—
Please Compare With Any Car
—the advantages we have itemized here because they speak for the complete quality way in which the New Essex Super-Six is built—things seen or unseen.
Essex Coach front seats slide forward on a patented base so that rear seat passengers can enter without front seat riders getting out.
COUPE $745 (Rumble Seat $30 extra) COACH $735 SEDAN (4-door) $795
All prices f. o. b. Detroit, plus war excise tax
Buyers can pay for cars out of income at lowest available charges for interest, handling and insurance.
Tires on the new Essex Super-Six are extra large—30" x 5"—their ample size not only aiding in roadability and long tire life, but adding to the riding ease for which Essex is famous.
In this, and such things as the black-rubber, steel-core, finger-scalloped steering wheel, the worm and tooth disc steering mechanism and the vertical radiator shutters, Essex visibly duplicates costly car practice, as it does also in the hidden things you never see, except in its care-free operation.
